Public Librarianship A Reader:

Readers' Advisory Service in the Public Library Joyce G. Saricks, 2005-04-11 In public libraries reference librarians are often called on to make recommendations to readers sometimes in genres that they don't personally read Learning how to frame a discussion and articulate the appeal of a book author or genre marks the essence of a successful readers advisor

Robbins, 2013-09-13 For well over one hundred years libraries open to the public have played a crucial part in fostering in Americans the skills and habits of reading and writing by routinely providing access to standard forms of print informational genres such as newspapers pamphlets textbooks and other reference books and literary genres including poetry plays and novels Public libraries continue to have an extraordinary impact in the early twenty first century the American Library Association reports that there are more public library branches than McDonald's restaurants in the United States Much has been written about libraries from professional and managerial points of view but less so from the perspectives of those most intimately involved patrons and librarians Drawing on circulation records patron reviews and other archived materials *Libraries and the Reading Public in Twentieth Century America* underscores the evolving roles that libraries have played in the lives of American readers Each essay in this collection examines a historical circumstance related to reading in libraries The essays are organized in sections on methods of researching the history of reading in libraries immigrants and localities censorship issues and the role of libraries in providing access to alternative nonmainstream publications The volume shows public libraries as living spaces where individuals and groups with diverse backgrounds needs and desires encountered and used a great variety of texts images and other media throughout the twentieth century [Introduction to Public Librarianship, Third Edition](#) Kathleen de la Pena McCook, Jenny S. Dilevko, Candice F.C. Magowan, 2007-02-13 Beginning in the early 1980s readers advisory services were a widely discussed topic in North American public libraries. By 2005 almost every public library in the United States and Canada offered some form of readers advisory service. The services offered have changed significantly in ways perhaps disadvantageous to adult North American library patrons. This book provides a critical history of readers advisory philosophy and offers a new perspective on the evolution of the service. The book analyzes the debate that shaped readers advisory and discusses how the service has assumed its present form. The study follows readers advisory through its three prominent stages of development beginning with the period 1870 to 1916 when the service was still a subject of much crucial debate about its meaning and purpose. During the second phase 1917 to 1962 readers advisory systematically committed itself to meaningful adult education through serious and purposeful reading. The book argues however that during the most recent phase of readers advisory from 1963 until the present contemporary public libraries have turned their backs on the rich heritage of readers advisory services by valorizing the reading of entertainment oriented and commodified genre titles and bestsellers. Historical analysis, case studies, and statistical charts augment the book's central argument.

Public Librarianship and Glorious Heritage of Karmabir Nabin Chandra Bordoloi Library (Reading Hall) Nabajyoti Das, Utpal Sarma, Badan

Barman, 2017-01-01 Public Librarianship and Glorious Heritage of Karmabir Nabin Chandra Bordoloi Library Reading Hall Plan for Renovation and Development

Public Library Collections in the Balance Jennifer Downey, 2017-07-25 A fascinating and informative read for librarians, library staff, and MLIS students, this book offers practical information and professional guidelines to examine current issues in censorship and libraries while also enabling readers to consider their own opinions about intellectual freedom. This book addresses contemporary issues in censorship and intellectual freedom and can serve as an invaluable resource for librarians and other library staff and as an eye-opening read for MLIS students. It covers the waterfront of intricate and thorny issues regarding intellectual freedom, including determining strategies for patron privacy, deciding how to filter public computers, handling challenges to items in a collection, and recognizing and eliminating under the radar self-censorship during collection development and weeding. Readers will also gain an understanding of the perils of over-reliance on community assessments and other evaluative tools and consider important concerns of public library employees such as whether to restrict borrowing privileges of R-rated movies and M-rated video games to patrons of various ages and the legalities that surround these questions. Each chapter blends instructive background narrative with practical advice, research findings, and relevant information about librarianship's professional guidelines, including the ALA's Library Bill of Rights and the Freedom to Read Statement. Vignettes, what would you do examples, effective nonconfrontational techniques for conflict resolution, and lists of tips and traps help readers to think critically about their own biases and rehearse possible responses to controversial situations. Librarians, library staff, and MLIS students can use this book for personal professional development as supplemental reading for MLIS courses or professional

training workshops or as a resource for library policy planning discussions

Creating and Promoting Lifelong Learning in Public Libraries Donna L. Gilton, 2016-06-21 *Creating and Promoting Lifelong Learning in Public Libraries: Tools and Tips For Practitioners* is the sequel to *Lifelong Learning in Public Libraries: Principles, Programs and People*. On the one hand, *Lifelong Learning in Public Libraries* focuses on the information needs and the developmental and psychological characteristics of diverse library users of all ages. It endorses the use of ILI to promote lifelong learning in public libraries both by borrowing techniques from academic and school libraries and by building on existing public library traditions of programming and outreach. This book also compares lifelong learning in public libraries to informal and nonformal education in museums, community organizations and agencies, places of worship and other organizations. In addition, *Lifelong Learning in Public Libraries* describes basic steps that librarians can execute in order to get started. On the other hand, *Creating and Promoting Lifelong Learning in Public Libraries* focuses much more on how public librarians can specifically plan and implement their instruction with chapters on planning for instruction using teaching methodologies, teaching with and about technology and bringing ILI together with more traditional public library services, programming and activities such as reference and Readers Advisory services, bibliotherapy and cultural and literacy programming. Changes in ILI standards and comparisons of ILI with basic reading, media, digital and cultural literacies are also described. Both books together should act as basic manuals for public librarians who promote lifelong learning. *Creating and Promoting Lifelong Learning in Public Libraries* also have helpful teaching hints for all librarians and other professionals who teach in a variety of settings.
