Reading Freud's Patients Anat Tzur Mahalel, 2020-06-01 Winner of the 2021 ABAPsa Book Prize Award What would the story of analysis look like if it were told through the eyes of the analysand How would the patient write and present the analytic experience How would the narrative as written by the analysand differ from the analytic narrative commonly offered by the analyst What do the actual analytic narratives written by Freud's patients look like This book aims to confront these intriguing questions with an innovative reading of memoirs by Freud's patients These patients including Sergei Pankejeff known as the Wolf Man the poet H D and the American psychoanalyst Abram Kardiner all came to Vienna specially to meet Freud and embark with him on the intimate and thrilling journey of deciphering the unconscious and unravelling the secrets of the psyche A broad psychoanalytic and literary historical reading of their memoirs is offered in this new entry to the popular Routledge History of Psychoanalysis Series with the purpose of presenting the analysands' narratives as they themselves recounted them This makes it possible to re-examine the links among psychoanalysis literature and translation and sheds new light on the complex challenge of coming to know oneself through the encounter with otherness This book is unique in its focus on multiple memoirs by patients of Freud and presents a fresh even startling close-up look at psychoanalysis as a clinical practice and as a rigorous discourse and offers a new vision of Freud's strengths and at times defects It will be of considerable interest to scholars of psychoanalysis and intellectual history as well as those with a wider interest in literature and memoir

Reading Riddles Brian Tucker, 2010-12-16 *Reading Riddles Rhetorics of Obscurity* from Romanticism to Freud explores how the riddle becomes a figure for reading and writing in early German Romanticism and how this model then enables Sigmund Freud's approach to the psyche It traces a migration of ideas from literature to psychoanalysis and argues that the relationship between them must be situated at the methodological level Through readings of texts by August Wilhelm Friedrich Schlegel G W F Hegel and Ludwig Tieck *Reading Riddles* documents how the Romantics expand the field of poetic signification to include obscure distorted signs and how they applied this rhetoric of obscurity to the self The book argues that this model of self and signification plays a central role in the formulation of Freud's psychoanalytic theory If the self is a riddle as many in the nineteenth century claim Freud takes the figure seriously and interprets the mind according to all the structures and techniques of that textual genre
