we do today people in medieval times struggled with the concept of human exceptionalism and the significance of other creatures Nowhere is this more apparent than in the medieval bestiary Sarah Kay s exploration of French and Latin bestiaries offers fresh insight into how this prominent genre challenged the boundary between its human readers and other animals Bestiaries present accounts of animals whose fantastic behaviors should be imitated or avoided depending on the given trait In a highly original argument Kay suggests that the association of beasts with books is here both literal and material as nearly all surviving bestiaries are copied on parchment made of animal skin which also resembles human skin Using a rich array of examples she shows how the content and materiality of bestiaries are linked due to the continual references in the texts to the skins of other animals as well as the ways in which the pages themselves repeatedly and at times it would seem deliberately intervene in the reading process A vital contribution to animal studies and medieval manuscript studies this book sheds new light on the European bestiary and its profound power to shape readers own identities

**The Arthur of Medieval Latin Literature**, 2011-03-15 King Arthur is arguably the most recognizable literary hero of the European Middle Ages His stories survive in many genres and many languages but while scholars and enthusiasts alike know something of his roots in Geoffrey of Monmouth's Latin History of the Kings of Britain most are unaware that there was a Latin Arthurian tradition which extended beyond Geoffrey This collection of essays will highlight different aspects of that tradition allowing readers to see the well known and the obscure as part of a larger often coherent whole These Latin literate scholars were as interested as their vernacular counterparts in the origins and stories of Britain's greatest heroes and they made their own significant contributions to his myth

music The last section deals with literary interfaces that is motifs or characters that exemplify the double sided or the long term transformations of medieval Latin mythologemes in vernacular culture both early modern and modern such as the legends about King Arthur Faust and Hamlet
