Reading Novels:

Reading Novels During the Covid-19 Pandemic Ben Davies, Christina Lupton, Johanne Gormsen Schmidt, 2022-10-20 Drawing on an ethnographic study of novel readers in Denmark and the UK during the Covid 19 pandemic this book provides a snapshot of a phenomenal moment in modern history The ethnographic approach shows what no historical account of books published during the pandemic will be able to capture namely the movement of readers between new purchases and books long kept in their collections The book follows readers who have tuned into novels about plague apocalypse and racial violence but also readers whose taste for older novels and for re reading novels they knew earlier in their lives has grown Alternating between chapters that analyse single texts that were popular Albert Camus's *The Plague* Ali Smith's *Summer* Charlotte Bronte's *Jane Eyre* and others that describe clusters of for example dystopian fiction and nature writing this work brings out the diverse quality of the Covid 19 bookshelf Time is of central importance to this study both in terms of the time of lockdown and the temporality of reading itself within this wider disrupted sense of time By exploring these varied experiences this book investigates the larger question of how the consumption of novels depends on and shapes people's experience of non work time providing a specific lens through which to examine the phenomenology of reading more generally This timely work also negotiates debates in the study of reading that distinguish theoretically between critical reading and reading for pleasure between professional and lay reading All sides of the sociological and literary debate must be brought to bear in understanding what readers tell us about what novels have meant to them in this complex historical moment

Stranger Fictions Rebecca C. Johnson, 2021-01-15 *Zaynab* first published in 1913 is widely cited as the first Arabic novel yet the previous eight decades saw hundreds of novels translated into Arabic from English and French This vast literary corpus influenced generations of Arab writers but has until now been considered a curious footnote in the genre's history Incorporating these works into the history of the Arabic novel *Stranger Fictions* offers a transformative new account of modern Arabic literature world literature and the novel Rebecca C Johnson rewrites the history of the global circulation of the novel by moving Arabic literature from the margins of comparative literature to its center Considering the wide range of nineteenth and early twentieth century translation practices including bad translation mistranslation and pseudotranslation Johnson argues that Arabic translators did far more than copy European works they authored new versions of them producing sophisticated theorizations of the genre These translations and the reading practices they precipitated form the conceptual and practical foundations of Arab literary modernity necessitating an overhaul of our notions of translation cultural exchange and the global Examining nearly a century of translations published in Beirut Cairo Malta Paris London and New York from Qat R binun Kur z *The story of Robinson Crusoe* in 1835 to pastiche crime stories in early twentieth century Egyptian magazines Johnson shows how translators theorized the Arab world not as Europe's periphery but as an alternative center in a globalized network *Stranger Fictions* affirms the central place of mis translation in both the history of the novel in Arabic and the novel as a transnational form itself

struggle to move this expanding body of intellectual aesthetic and entertaining literature into the mainstream of library materials *The Encyclopedia of the Novel* Peter Melville Logan, Olakunle George, Susan Hegeman, Efraín Kristal, 2014-02-11 Now available in a single volume paperback this advanced reference resource for the novel and novel theory offers authoritative accounts of the history terminology and genre of the novel in over 140 articles of 500 7 000 words Entries explore the history and tradition of the novel in different areas of the world formal elements of the novel story plot character narrator technical aspects of the genre such as realism narrative structure and style subgenres including the bildungsroman and the graphic novel theoretical problems such as definitions of the novel book history and the novel s relationship to other arts and disciplines The Encyclopedia is arranged in A Z format and features entries from an international cast of over 140 scholars overseen by an advisory board of 37 leading specialists in the field making this the most authoritative reference resource available on the novel This essential reference now available in an easy to use fully indexed single volume paperback will be a vital addition to the libraries of literature students and scholars everywhere

Gerald Kennedy,Leland S. Person,2014-06-26 The Oxford History of the Novel in English is a 12 volume series presenting a comprehensive global and up to date history of English language prose fiction and written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements traditions and tendencies In thirty four essays this volume reconstructs the emergence and early cultivation of the novel in the United States Contributors discuss precursors to the U S novel that appeared as colonial histories autobiographies diaries and narratives of Indian captivity religious conversion and slavery while paying attention to the entangled literary relations that gave way to a distinctly American cultural identity The Puritan past more than two

centuries of Indian wars the American Revolution and the exploration of the West all inspired fictions of American struggle and self discovery A fragmented national publishing landscape comprised of small local presses often disseminating odd experimental forms eventually gave rise to major houses in Boston New York and Philadelphia and a consequently robust culture of letters Dime novels literary magazines innovative print technology and even favorable postal rates contributed to the burgeoning domestic book trade in place by the time of the Missouri Compromise Contributors weigh novelists of this period alongside their most enduring fictional works to reveal how even the most American of novels sometimes confronted the inhuman practices upon which the promise of the new republic had been made to depend Similarly the volume also looks at efforts made to extend American interests into the wider world beyond the nation's borders and it thoroughly documents the emergence of novels projecting those imperial aspirations

Revolutionary Subjects in the English "Jacobin" Novel, 1790-1805

Miriam L. Wallace, 2009 The Jacobin novel was labeled as such in Britain because of its supposed connections to the French Revolution This book takes an in depth look at these novels written between 1790 and 1805 She centers on the group surrounding Wollstonecraft and Godwin although not exclusively exploring the limits of their philosophy of human rights and personal subjectivity Unlike other recent scholars the author treats both male and female writers making feminism an aspect of the work but not the overriding one While the novels are the main focus other work by the writers is considered as it

pertains to their beliefs She also discusses the reaction from those who defined the Jacobins by opposing them

The Novel in Nineteenth-Century Bengal Sunayani Bhattacharya, 2023-07-13 How does a reader learn to read an unfamiliar genre The Novel in Nineteenth Century Bengal answers this question by looking at the readers of some of the first Bengali novelists including Bankimchandra Chattopadhyay and Mir Mosharraf Hossain Moving from the world of novels periodicals letters and reviews to that of colonial educational policies this book provides a rich literary history of the reading lives of some of the earliest novel readers in colonial India Sunayani Bhattacharya studies the ways in which Bengalis thought about reading how they approached the thorny question of influence and uncovers that they relied on classical Sanskrit and Perso Arabic literary and aesthetic models whose attendant traditions formed not a distant past but coexisted albeit contentiously with the everyday present Challenging dominant postcolonial scholarship The Novel in Nineteenth Century Bengal engages with the lived experience of colonial modernity as it traces the import of the Bengali reader's choices on her quotidian life and grants access to 19th century Bengal as a space in which the past is to be found enmeshed with the present

Empathy and the Novel Suzanne Keen, 2007-04-19 Does empathy felt while reading fiction actually cultivate a sense of connection leading to altruistic actions on behalf of real others Empathy and the Novel presents a comprehensive account of the relationships among novel reading empathy and altruism Drawing on psychology narrative theory neuroscience literary history philosophy and recent scholarship in discourse processing Keen brings together resources and challenges for the literary study of empathy and the psychological study of fiction reading Empathy robustly enters into affective responses to fiction yet its role in shaping the behavior of emotional readers has been debated for three centuries Keen surveys these debates and illustrates

the techniques that invite empathetic response She argues that the perception of fictiveness increases the likelihood of readers empathy in part by releasing them from the guarded responses necessitated by the demands of real others Narrative empathy is a strategy and subject of contemporary novelists from around the world writers who tacitly endorse the potential universality of human emotions when they call upon their readers empathy If narrative empathy is to be taken seriously Keen suggests then women s reading and responses to popular fiction occupy a central position in literary inquiry and cognitive literary studies should extend its range beyond canonical novels In short Keen s study extends the playing field for literature practitioners causing it to resemble more closely that wide open landscape inhabited by readers
