The Home-School Connection Bonnie J. Pryor,1996 This paper written by a school administrator to parents discusses parents role in creating a positive educational environment from providing a structured home life to volunteering in their child s classroom The paper begins by asserting that a primary cause of behavior problems in the classroom is parent child relationships in which the child rather than the parent is dominant thereby creating students who believe they should be the center of attention Society s focus on instant gratification and working parents guilt are also mentioned as contributors to behavior problems The paper recommends sure firm and consistent discipline inside the classroom and at home as a way to raise children who are well adjusted members of society and who display respect and concern for others The paper then offers suggestions for supporting children s academic success such as talking to children about their goals and the necessary steps to achieve them teaching children empathy for other people promoting assertiveness rather than aggressiveness and being a good role model Finally the paper discusses parent participation at school recommending ways parents can approach teachers about volunteering and tasks parents can do for schools The paper concludes by noting that teacher parent contact not only promotes good will between the two but in most cases promotes a positive attitude in the child EV *Observing* Macmillan Publishing Company,Virginia A.
