## **Reading German Humanities:**

Reading German in the Humanities Wolf Gewehr, Wolff A. Von Schmidt, 1972      **Reading German: Humanities** Jörg Matthias-Roche, 2000 The Reading German texts and CD ROM materials were developed to aid students in acquiring a reading knowledge of German Through the use of these materials students are expected to obtain a level of proficiency sufficient for understanding scientific and scholarly material written in German The course is divided into two levels Reading German Introduction is an introductory course that covers reading strategies reading grammar resources and basic vocabulary It leads to a second year reading knowledge of German in 12 weeks The Humanities Business Economics Chemistry and Music books lead to a reading knowledge of German comparable to fourth year language courses and teach highly specialised language skills in the student s individual area of interest The CD ROM incorporates guided and independent study sections that deal with topics from Reading German Introduction and fosters autonomous learning The programs are designed to make efficient use of the students subject matter knowledge thus enabling them to deal with challenging and highly relevant topics from the beginning without the prerequisite 2 3 years of very basic language commonly taught in introductory courses As well the programs accommodate five different levels of text difficulty to suit the German language skills of individual students The course materials encourage students to learn at their own pace and progress faster to higher levels of proficiency than is otherwise achieved through traditional reading courses      Biennial Catalog New Mexico Institute of Mining and Technology, New Mexico. **Law and Humanities** Russell Sandberg,Daniel Newman,2024-01-09 This edited collection provides the first accessible introduction to Law and Humanities Each chapter explores the nature development and possible further trajectory of a disciplinary law and field Each chapter is written by an expert in the respective field and addresses how the two disciplines of law and the other respective field operate This edited work therefore fulfils a real and pressing need to provide an accessible introductory but critical guide to law and humanities as a whole by exploring how each disciplinary law and field has developed contributes to further scrutinizing the content and role of law and how it can contribute and be enriched by being understood within the law and humanities tradition as a whole     **Walter Benjamin and Cultural Translation**

Birgit Haberpeuntner, 2024-05-16 Dissecting the radical impact of Walter Benjamin on contemporary cultural postcolonial and translation theory this book investigates the translation and reception of Benjamin's most famous text about translation The Task of the Translator in English language debates around cultural translation For years now there has been a pronounced interest in translation throughout the Humanities which has come with an increasing detachment of translation from linguistic textual parameters It has generated a broad spectrum of discussions subsumed under the heading of cultural translation a concept that is constantly re-invented and manifests in often heavily diverging expressions However there seems to be a distinct constant In their own re-formulations of this concept a remarkable number of scholars Bhabha Chow Niranjana to name but a few explicitly refer to Walter Benjamin's The Task of the Translator In its first part this book considers Benjamin and the way in which he thought about theorized and practiced translation throughout his writings In a second part Walter Benjamin meets cultural translation tracing various paths of translation and reception this part also tackles the issues and debates that result from the omnipresence of Walter Benjamin in contemporary theories and discussions of cultural translation The result is a clearer picture of the translation and reception processes that have generated the immense impact of Benjamin on contemporary cultural theory as well as new perspectives for a way of reading that re-shapes the canonized texts themselves and holds the potential of disturbing shifting and enriching their more traditional readings
