This book helps teachers vanquish the dreaded fourth grade slump by creating an energized and organized learning environment in which all students can improve their reading and writing strategies. Taking readers into the classroom of an exemplary fourth grade teacher, the book includes useful assessment tools, differentiation techniques, mini lessons, unit plans, reproducibles, and examples of student work. Special attention is given to meeting the challenges of high stakes testing without sacrificing instructional quality.

**Mini-lessons for Literature Circles** Harvey Daniels, Nancy Steineke, 2004

Harvey Daniels' *Literature Circles* introduced tens of thousands of teachers to the power of student-led book discussions. Nancy Steineke's *Reading and Writing Together* showed how a teacher can nurture friendship and collaboration among young readers. Now Daniels and Steineke team up to focus on one crucial element of the Literature Circle model: the short, teacher-directed lessons that begin, guide, and follow up every successful book club meeting. Mini-lessons are the secret to book clubs that click. Each of these forty-five short, focused, and practical lessons includes Nancy and Harvey's actual classroom language and is formatted to help busy teachers with point-by-point answers to the questions they most frequently ask: How can I steer my students toward deeper comprehension? Get kids interested in each other's ideas. Make sure kids choose just right books. Help students schedule their reading and meeting time. Deal with kids who don't do the reading. Get kids to pay more attention to literary style and structure. Help special education and ELL students to participate actively in book clubs. Get kids to expand their repertoire of reading strategies. Make sure groups are on task when I'm not looking over their shoulder. Introduce writing tools, including role sheets that support student discussion. Help shy or dominating members get the right amount of airtime. Give grades for book clubs without ruining the fun. Use scientific research to justify the classroom time I spend on literature circles. Each mini-lesson spells out everything from the time and materials needed to word-by-word instructions for students. The authors even warn what could go wrong, helping teachers to avoid predictable management problems. With abundant student examples, reproducible forms, photographs of kids in action, and recommended reading lists, *Mini-lessons for Literature Circles* helps you deepen student book discussions, create lifelong readers, and build a
