Puthoff PhD founder and former director of the CIA initiated Remote Viewing Program. From behind the cloak of US military secrecy comes the story of Star Gate the project that for nearly a quarter of a century trained soldiers and civilian spies in extra sensory perception ESP. Their objective To search out the secrets of America's cold war enemies using a skill called remote viewing. Paul H. Smith a US Army Major was one of these viewers. With the Star Gate secrets declassified and the program mothballed by the Central Intelligence Agency the story can now be told of the ordinary soldiers drafted onto the battlefield of human consciousness. Using hundreds of interviews with the key players in the Star Gate program and gathering thousands of pages of documents Smith reveals many secrets about how remote viewing works and how it was used against enemy targets. Among these stories are the search for hostages in Lebanon spying on Soviet directed energy weapons investigating the bombing of Pan Am Flight 103 over Lockerbie Scotland tracking foreign testing of weapons of mass destruction combating narco trafficking off America's coasts aiding in the Iranian hostage situation finding KGB moles in the CIA pursuing Middle East terrorists and more. The Epistemology of Reading and Interpretation René van Woudenberg, 2021-09-16 Reading and textual interpretation are ordinary human activities performed inside as well as outside academia but precisely how they function as unique sources of knowledge is not well understood. In this book Ren van Woudenberg explores the nature of reading and how it is distinct from perception and attending to testimony which are two widely acknowledged knowledge sources. After distinguishing seven accounts of interpretation van Woudenberg discusses the question of whether all reading inevitably involves interpretation and shows that although reading and interpretation often

go together they are distinct activities He goes on to argue that both reading and interpretation can be paths to realistically conceived truth and explains the conditions under which we are justified in believing that they do indeed lead us to the truth Along the way he offers clear and novel analyses of reading meaning interpretation and interpretative knowledge

Re-Reading The Excursion Sally Bushell,2017-03-02 Re Reading The Excursion Narrative Response and the Wordsworthian Dramatic Voice is a groundbreaking study which transforms contemporary critical understanding of The Excursion and of the place of this long poem in the Wordsworthian canon Sally Bushell argues that the poem which has suffered at the hands of critics for most of the twentieth century has been unfairly judged according to a Coleridgean rather than a Wordsworthian definition of philosophy that it has been read as a didactic work rather than one which uses its dramatic form to teach its readers to think for themselves She offers a new reading in which The Excursion is shown to be about providing the readers with moral habits and mental constructs by which to learn not simply telling them what to think The book begins with a discussion of the reception of the poem in 1814 considering the responses of Coleridge Hazlitt Francis Jeffrey and Charles Lamb This historicized discussion is then balanced by a reading of the poem at the compositional stage looking at the emergence from the manuscripts of a Wordsworthian dramatic voice The author goes on to argue that the poem s philosophy is performative that is concerned with the way in which moral ideas can best be communicated as much as with the ideas themselves She then shifts her attention to consider how this operates in relation to the reader considering the importance of context in relation to emotional response Later the epitaphic books are reconsidered in the light of Wordsworth s critical writing Bushell argues that the significance of the epitaph for him lies in its values as a poetic form in which the text itself is released from poetic authority Finally the author looks back at The Prelude from the perspective of The Excursion and shows how the later poem attempts to value the ordinary rather than the poetic mind The conclusion reached is that Wordsworth is not just the egotistical poet of The Prelude interested largely in the development of his own imaginative powers but one who goes on to explore the limits of subjectivity and the importance of different kinds of imaginative links between individuals
