Launch an Intermediate Reading Workshop Lucy Calkins, 2010-10-12 Workshops are deliberately kept simple and predictable like an art studio or a researcher s laboratory because it is the work itself that is ever changing and complex Each day s teaching in a workshop does not set up a new hoop for the students to all jump through in sync Instead for the bulk of time during each day students carry on with their work As they do so they draw upon a growing repertoire of skills tools strategies and habit Lucy Calkins Learn how to teach students to read with increasing sophistication and personal engagement and how Lucy Calkins and her colleagues launch a rigorous and responsive intermediate reading workshop Through 2 foundational books A Guide to the Reading Workshop and Building a Reading Life and eight online video clips Lucy and her colleagues provide the strategies lesson plans and tools you ll need to lead strong efficient reading workshops in upper elementary classrooms A Guide to the Reading Workshop crystallizes the reading workshop After detailing the essential principles of reading workshop instruction Lucy describes how to develop engaging minilessons that develop the skills of proficient readers In the chapters that follow Lucy presents different ways to lead small group work and one to one conferences In addition to describing the predictable methods and structures of a reading workshop select chapters consider

Growing Readers Kathy Collins, 2023-10-10 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction

that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In *Growing Readers* Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four Getting Ready sections that suggest some behind the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in *Growing Readers* create the kind of primary classrooms where that happens

Comprehension Through Conversation Maria Nichols, 2006 Maria Nichols offers not possible lessons but full descriptions of actual lessons Here you ll find no ivory tower examples of what might be but examples of what is already available in many classrooms These are classrooms of the sort that we hope our children and grandchildren are lucky enough to encounter not once in a while but routinely Richard L Allington To say this is an exceptional book about teaching comprehension would be to trivialize it With superb examples and flawless logic Nichols demonstrates how to orchestrate conversations that build literate habits of mind Peter H Johnston author of *Choice Words* *Comprehension Through Conversation* captures the power and essence of purposeful engaging instruction and reminds us of the real purpose for comprehension instruction to understand the deeper issues in texts and discuss these ideas to construct meaning Nancy L Akhavan author of *How to Align Literacy Instruction and Standards* When it comes to reading comprehension talk isn t cheap it s a valuable way to help children think articulate their opinions about a text and get the most from their reading experiences *Comprehension Through Conversation* is a practical guide to comprehension conversation and collaboration Maria Nichols invites you to listen in on reading workshops where purposeful book talk leads students to deeper understandings of fiction nonfiction and the world beyond Moving forward from the widely understood concept that exchanging ideas builds students comprehension Nichols shows you specific ways to use conversation as a scaffolding that bridges prior knowledge to more advanced reading skills and techniques as well as to big ideas such as themes Her useful ideas for conversations begin with lesson designs that use read alouds to spark discussions lead to suggestions for units of study that support children as they read progressively more complex texts and ultimately build toward fully independent reading and thinking Start a new dialogue with your students about reading thinking and sharing

Open your curriculum to the types of smart book discussions in *Comprehension Through Conversation* You ll discover that when it comes to increasing reading comprehension encouraging critical thinking and creating literate habits of mind purposeful talk is priceless
