Book jacket

Books Are Made Out of Books Michael Lynn Crews, 2024-10-08 Cormac McCarthy told an interviewer for the New York Times Magazine that books are made out of books but he was famously unwilling to discuss how his own writing draws on the works of other writers Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works demonstrating that McCarthy was well aware of literary tradition and deliberately situating himself in a knowing relationship to precursors

In *Books Are Made Out of Books* Michael Lynn Crews thoroughly mines

McCarthy's literary archive to identify over 150 writers and thinkers that McCarthy referenced in early drafts, marginalia, notes, and correspondence. Crews organizes the references into chapters devoted to McCarthy's published works, the unpublished screenplay *Whales and Men*, and McCarthy's correspondence. This updated edition now examines McCarthy's final publications, the novel *The Passenger* and its play-like coda *Stella Maris*. For each work, Crews identifies authors, artists, or other cultural figures that McCarthy referenced, gives the source of the reference in McCarthy's papers, provides context for the reference as it appears in the archives, and explains the significance of the reference to the novel or play that McCarthy was working on. This groundbreaking exploration of McCarthy's literary influences vastly expands our understanding of how one of America's foremost authors engaged with the ideas, images, metaphors, and language of other thinkers and made them his own.

Licensing Entertainment William B. Warner, 1998-09-10. Novels have been a respectable component of culture for so long that it is difficult for twentieth-century observers to grasp the unease produced by novel reading in the eighteenth century. William Warner shows how the earliest novels in Britain, published in small-format print media, provoked early instances of the modern anxiety about the effects of new media on consumers. Warner uncovers a buried and neglected history of the way in which the idea of the novel was shaped in response to a newly vigorous market in popular narratives. In order to rein in the sexy and egotistical novel of amorous intrigue, novelists and critics redefined the novel as morally respectable, largely masculine in authorship, national in character, realistic in its claims, and finally literary. Warner considers early novelists in their role as entertainers and media workers and shows how the short, erotic plot-driven novels written by Behn, Manley, and Haywood came to be absorbed and overwritten by the popular novels of Defoe, Richardson, and Fielding. Considering these novels as entertainment as well as literature, Warner traces a different story, one that redefines the terms within which the British novel is to be understood and replaces the literary history of the rise of the novel with a more inclusive cultural history.

The Thinker's Thesaurus Peter E. Meltzer, 2012-04-16. With over twenty percent more material, a must for any lover of distinctive words. This entertaining and informative reference features sophisticated and surprising alternatives to common words, together with no-fail guides to usage. Avoiding traditional thesauruses' mundane synonym choices, Peter E. Meltzer puts each word, whether it's protreptic, apostrophize, iracund, or emulous, in context by using examples from a broad range of contemporary books, periodicals, and newspapers. His new introduction makes the case for why we should widen our vocabulary and use the one right word. This groundbreaking thesaurus remains a unique venture, one that enriches your writing while helping you find the perfect word.

The Demise of the Library School Richard J. Cox, 2010. In *The Demise of the Library School*, Richard J. Cox places the present and future of professional education for librarianship in the debate on the modern corporate university. The book is a series of meditations on critical themes relating to the education of librarians, archivists, and other information professionals, playing off of other commentators analyzing the nature of higher education and its problems and promises.

Reading Miscellany in the Roman Empire

Assistant Professor of Classics and Senior Research Associate of the Cobb Institute of Archaeology Scott J Digiulio, Scott J. DiGiulio, 2024 Aulus Gellius and his sole surviving work the *Noctes Atticae* NA have long stood on the periphery of Classical scholarship This second century CE compilation conventionally termed a miscellany collects vast amounts of otherwise lost ancient literature and the depictions of scholarly activity throughout the work have led some to see in Gellius a kindred spirit a Classicist avant la lettre Yet the NA is a fascinating work of literature in its own right depicting the intellectual and literary culture at the height of the Roman Empire and offering invaluable evidence for the evolution of Latin prose as a literary form in the Antonine period In contrast to previous scholarship that looks past the randomness of the NA this book argues that the conceit of disorder enabled Gellius to probe the nature of reading in the second century CE Gellius central preoccupation is articulating a distinct set of ways of reading that may be employed to navigate the web of literature in the Roman Empire In turn each of these ways of reading through material framing devices focal characters recurrent citations in dialogue with one another and allusive references to other near contemporary works can be used to examine Gellius collection and appreciate its literary qualities Incorporating inter and intratextual analysis alongside narratology informed approaches this book investigates the strategies used by Gellius to innovate within the Latin literary tradition and provides a framework for interpreting his *varietas* on its own terms

Reading the Abrahamic Faiths Emma Mason, 2014-12-18 Rethinking religion and literature in a series of chapters by leading international scholars Reading the Abrahamic Faiths opens up a dialogue between Jewish Christian Islamic and Post Secular literary cultures Literary studies has absorbed religion as another interdisciplinary mode of inquiry without always attending to its multifaceted potential to question ideologically neutral readings of culture belief emotion politics and inequality In response Reading the Abrahamic Faiths contributes to a reevaluation of the nexus between religion and literature that is socially affectively and materially determined in its sensitivity to the expression of belief Each section Judaism Christianity Islam and Post Secularism is introduced by a specialist in these respective areas to introduce the critical readings of the texts and discourses that follow
