The Writer's Book of Memory Janine Rider, 2013-11-05 Memory has long been ignored by rhetoricians because the written word has made memorization virtually obsolete Recently however as part of a revival of interest in classical rhetoric scholars have begun to realize that memory offers vast possibilities for today s writers Synthesizing research from rhetoric psychology philosophy and literary and composition studies this volume brings together many historical and contemporary theories of memory Yet its focus is clear memory is a generator of knowledge and a creative force which deserves attention at the beginning of and throughout the writing process This volume emphasizes the importance of recognizing memory s powers in an age in which mass media influence us all and electronic communication changes the way we think and write It also addresses the importance of the individual memory and voice in an age which promotes conformity Written in a strong lively personal manner the book covers a great deal of scholarly material It is never overbearing and the extensive bibliography offers rich vistas for further study

Rhetoric in the Rest of the West Shane Borrowman, Marcia Kmetz, Robert L. Lively, 2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical

traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition
