

LABOUR WELFARE

Welfare includes anything that is done for the comfort and improvement of employees and is provided over and above the wages. Welfare helps in keeping the morale and motivation of the employees high so as to retain the employees for longer duration.

Labour welfare is a flexible and elastic concept. Its meaning and implications differ widely with times, regions, industries, countries, social values and customs, the general economic development of the people and the political ideologies prevailing at particular moments.

In the words of Prof. H.S. Kirkaldy, "The whole field of welfare is one in which much can be done to combat the sense of frustration of the industrial workers, to relieve them of the personal and family worries, to improve their health, to offer them some sphere in which they can excel others and to help them to a wider conception of life."

In the second Asian Regional Conference of ILO, it was stated that workers' welfare may be understood to mean "such services, facilities and amenities which may be established in or in the vicinity of undertakings to enable the persons employed in them to perform their work in healthy and peaceful surroundings and to avail of facilities which improve their health and high morale."

In the conclude form employee welfare includes monitoring of working conditions, creation of industrial harmony through infrastructure for health, industrial relations and insurance against disease, accident and unemployment for the workers and their families. Labour welfare entails all those activities of employer, which are directed towards providing the employees with certain facilities and services in addition to wages or salaries.

HISTORY OF LABOUR WELFARE

During the early period of industrial development, efforts towards workers' welfare was made largely by social workers, philanthropists and other religious leaders, mostly on humanitarian grounds. Before the introduction of welfare and other legislation in India, the conditions of labour were miserable. Exploitation of child labour, long hours of work, bad sanitation, absence of safety measures etc., were the regular features of the factory life.

- **Pre- Independence Era:** The movement to improve the working conditions of Indian labour started with the passing of the first Indian Factories Act in 1881. The
