Lindenmeyr, 2019-11-12 Countess Sofia Panina lived a remarkable life Born into an aristocratic family in imperial Russia she found her true calling in improving the lives of urban workers Her passion for social service and reputation as the Red Countess led her to political prominence after the fall of the Romanovs She became the first woman to hold a cabinet position and the first political prisoner tried by the Bolsheviks The upheavals of the 1917 Revolution forced her to flee her beloved country but instead of living a quiet life in exile she devoted the rest of her long life to humanitarian efforts on behalf of fellow refugees Based on Adele Lindenmeyr's detailed research in dozens of archival collections Citizen Countess establishes Sofia Panina as an astute eyewitness to and passionate participant in the historical events that shaped her life Her experiences shed light on the evolution of the European nobility women's emancipation and political influence of the time and the fate of Russian liberalism **Readings on International Law from the Naval War College Review, 1978-1994**

John Norton Moore, Robert F. Turner, 1995 **Selected Reading in Public Finance** Charles Jesse Bullock, 1924 The New Larned History for Ready Reference, Reading and Research Josephus Nelson Larned, 1923 From Hannibal to Sulla Carsten Hjort Lange, 2024-01-29 The second century BCE was a time of prolonged debate at Rome about the changing nature of warfare From the outbreak of the Second Punic War in 218 to Rome's first civil war in 88 BCE warfare shifted from the

struggle against a great external enemy to a conflict against internal parties This book argues that Rome's Italian subjects were central to this development having rebelled and defected to Hannibal at the end of the third century the allies again rebelled in 91 BCE with significant consequences for Roman thought about warfare as such These rebellions constituted an Italian renewal of the war against their old conqueror Rome and an internal war within the polity Accordingly we need to add internal war to the already well established dichotomy of foreign and civil war This fresh analysis of the second century demonstrates that the Roman experience of internal war during this period provided the natural stepping stone in the invention of civil war as such It conceives of the period from the Second Punic War onward as an antebellum period to the later civil wars of the Late Republic during which contemporary observers looked back at the last great war against Hannibal in preparation for the next conflict

Reading and Writing for Civic Literacy Donald Lazere, 2017-07-05 Lazere's book is heaven sent and will provide a crucial link in the chain of understanding how conflicts are structured and most importantly how they can be rationally addressed a healthy antidote to the scepticism that has become so pervasive in academic life Alan Hausman Hunter College This innovative book addresses the need for college students to develop critical reading writing and thinking skills for self defence in the contentious arena of American civic rhetoric In a groundbreaking reconception of composition theory it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies such as the growing inequality of wealth in America and its impact on the finances of college students as expressed in paired sets of readings from the political left and right Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media as well as in education itself are foregrounded as topics for rhetorical analysis
