Experimental - Visual - Concrete , 2020-12-07 This book addresses the major critical and interpretive issues of contemporary experimental poetic texts Critical approaches historical contexts and basic concepts are surveyed in two introductory essays while the study of poetic movements in historical context and the chronological trajectory of production of experimental texts are discussed in the first major segment of the volume Experimentation in Its Historical Moment The principal topic addressed here is the nature of experimental poetry in revolutionary social contexts The second major theme focused upon in the section Experimentation in the Language Arts is that of language as a vehicle for experiments and cognitive quests aimed not at the production of truth or social emancipation but at experiential aspects of language and language use Haroldo de Campos s fragmented poetic prose work Gal xias is a highlighted topic of attention as are poetic and language experiments in Lettrism Fluxus sound poetry and new technological poetics The development of the basic tenets of Concrete poetry and current critical perspectives on its status in poetical experimentation constitute the basis of the third section of the book Concrete and Neo Concrete Poetry The relationship of historical Concrete poetry to artistic genres is presented with special emphasis on Brazil and on contemporary visual writing The section Memoirs of Concrete in the context of oral history includes retrospective accounts by two of Concrete poetry s most renowned editors The closing section of this book presents statements on the theory and practice of avant garde poetry by 22 participants in the Yale Symposposium on Contemporary Poetics and Concretism Since '45 Katy Siegel, 2013-06-01 Since 45 details the

collision of American history and modern art Since World War II New York has been the indisputable center of the art world and as Katy Siegel shows it has had a profound influence on the preoccupations that contemporary art would come to have Tracing art history over the past decades she shows how anxieties over race mass culture the individual suburbia apocalypse and nuclear destruction have supplanted the legacy of European artistic traditions Siegel's study encompasses a variety of works including Rothko's planes of color Warhol's serial silkscreens Richard Prince's cowboys Robert Longo's Men in Cities Faith Ringgold's Black Light and Laurie Simmons's dollhouses and moves fluidly from discussions of artists' works art museums and galleries to cultural influences and significant historical events Rather than arguing on nationalist grounds or viewing American culture as representative of a now devalued nation Siegel explores how American culture dominated not only American artists but created conditions that now after the full globalization of the art world affect artists around the world Since 45 will interest all readers engaged in post war and contemporary art in the United States and beyond *The Shock of the New* Robert Hughes, 2013-08-14 A beautifully illustrated hundred year history of modern art from cubism to pop and avant guard More than 250 color photos Catalog of the Library of the Museum of Modern Art: Col Museum of Modern Art (New York, N.Y.). Library, 1976 American Artists On Art Ellen Johnson, 2018-02-20 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists' words and the public's hunger for them even some of the general public out there beyond art's little circle Statements by artists appeal somewhat the way drawings do they bring us or at least they hold the promise of bringing us closer to the artist's thoughts and feelings and to an understanding of his or her modus operandi they hold the keys to a mysterious realm And sometimes they offer us the sheer pleasure of good reading Such is the primary raison d'être of this book Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present This anthology differs in several respects from those others that do include documents of American art since 1940 The selection I have made is devoted exclusively to statements of artists it is limited to the last four decades it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition intent or direction of art **Catalog of the Library of the Museum of Modern Art: A** Museum of Modern Art (New York, N.Y.). Library, 1976 **LARRY BELL** Hudson River Museum, 1981 *Art Subjects* Howard Singerman, 2023-09-01 Nearly every artist under the age of fifty in the United States today has a Master of Fine Arts degree Howard Singerman's thoughtful study is the first to place that degree in its proper historical framework and ideological context Arguing that where artists are trained makes a difference in the forms and

meanings they produce he shows how the university with its disciplined organization of knowledge and demand for language played a critical role in the production of modernism in the visual arts Now it is shaping what we call postmodernism like postmodernist art the graduate university stresses theory and research over manual skills and traditional techniques of representation Singerman who holds an M F A in sculpture as well as a Ph D in Visual and Cultural Studies is interested in the question of the artist as a professional and what that word means for and about the fashioning of artists He begins by examining the first campus based art schools in the 1870s and goes on to consider the structuring role of women art educators and women students the shift from the fine arts to the visual arts the fundamental grammar of art laid down in the schoolroom and the development of professional art training in the American university Singerman s book reveals the ways we have conceived of art in the past hundred years and have institutionalized that conception as atelier activity as craft and finally as theory and performance Nearly every artist under the age of fifty in the United States today has a Master of Fine Arts degree Howard Singerman s thoughtful study is the first to place that degree in its proper historical framework and ideological context Arguing that where art is made matters Catalog of Copyright Entries.
