Chapman, Wendy Conroy, Noel Sheehy, 2016-01-08 The Biographical Dictionary of Psychology provides biographical information and critical analysis of the influences and reception of over 500 people who have made a significant contribution to the field of psychology. Written by an international team of contributors, this volume charts the development of the practice of psychology worldwide from its emergence in the 1850s up to the present day. Biographies range from important historical figures to those who have had a more recent impact on the field, including Chris Argyris, Donald Broadbent, Kay Deaux, Leon Festinger, Sigmund Freud, Erich Fromm, Francis Galton, Eleanor Gibson, Doreen Kimura, Ulric Neisser, Jean Piaget, Herbert A. Simon, B. F. Skinner, Amos Tversky. Entries are alphabetically organized and similarly structured for ease of access and allowing comparison of information. Introductory biographical details cover main fields of interest, nationality, principal appointments, honours, and places and dates of birth and death. This is followed by full bibliographic details of principal publications as well as secondary and critical literature which provide a useful route into further research. Following on from there is an invaluable critical appraisal of the major achievements, influences, and reception of the psychologists themselves. Thorough indexing allows the reader to access information by American Psychological Association subject division, key concepts, name, and institution. Advances in Databases and Information Systems Morzy Tadeusz, Patrick Valduriez, Ladjel Bellatreche, 2015-08-14 This book constitutes the thoroughly refereed proceedings of the 19th East European Conference on Advances in Databases and Information Systems ADBIS 2015 held in Poitiers, France, in September 2015. The 31 full papers and 18 short papers presented were carefully selected and reviewed from 135 submissions. The papers are organized in topical sections such as database theory and access methods, user requirements and database evolution, multidimensional modeling and OLAP, ETL transformation, extraction and archiving, modeling and ontologies, time series processing, performance and tuning, advanced query processing, approximation and skyline, confidentiality and trust. **Boystown** Jason Orne, 2017-01-20 From neighborhoods as large as Chelsea or the Castro to locales limited to a single club like The Shamrock in Madison or Sidewinders in Albuquerque, gay areas are becoming normal. Straight people flood in, gay people flee out. Scholars call this transformation assimilation, and some argue that we, gay and straight alike, are becoming post-gay. Jason Orne argues that rather than post-gay America is becoming post-queer, losing the radical lessons of sex. In Boystown, Orne takes readers on a detailed, lively journey through Chicago's Boystown, which serves as a model for gayborhoods around the country. The neighborhood, he argues, has become an entertainment district, a gay Disneyland where people get lost in the magic of the night and where straight white women can go on safari. In their original form, though, gayborhoods like this one don't celebrate differences; they create them. By fostering a space outside the mainstream, gay spaces allow people to develop an alternative culture, a queer culture that celebrates sex. Orne spent three years doing fieldwork in Boystown, searching for ways to ask new questions about the connective power of sex and about what it means to be not just gay but queer. The result is the striking Boystown illustrated throughout with street photography by Dylan Stuckey. In the dark backrooms of raunchy

clubs where bachelorettes wouldn't dare tread people are hooking up and forging naked intimacy Orne is your tour guide to the real Boystown then where sex functions as a vital center and an antidote to assimilation

Invisible Nature Kenneth Worthy, 2013-08-06 A revolutionary new understanding of the precarious modern human nature relationship and a path to a healthier more sustainable world Amidst all the wondrous luxuries of the modern world smartphones fast intercontinental travel Internet movies fully stocked refrigerators lies an unnerving fact that may be even more disturbing than all the environmental and social costs of our lifestyles The fragmentations of our modern lives our disconnections from nature and from the consequences of our actions make it difficult to follow our own values and ethics so we can no longer be truly ethical beings When we buy a computer or a hamburger our impacts ripple across the globe and dissociated from them we can't quite respond Our personal and professional choices result in damages ranging from radioactive landscapes to disappearing rainforests but we can't quite see how Environmental scholar Kenneth Worthy traces the broken pathways between consumers and clean room worker illnesses superfund sites in Silicon Valley and massively contaminated landscapes in rural Asian villages His groundbreaking psychologically based explanation confirms that our disconnections make us more destructive and that we must bear witness to nature and our consequences Invisible Nature shows the way forward how we can create more involvement in our own food production more education about how goods are produced and waste is disposed more direct and deliberative democracy and greater contact with the nature that sustains us

Interpersonal Rejection Mark R. Leary, 2006-08-24 Interpersonal rejection ranks among the most potent and distressing events that people experience Romantic rejection ostracism stigmatization job termination and other kinds of rejections have the power to compromise the quality of people's lives

As a result people are highly motivated to avoid social rejection and indeed much of human behavior appears to be designed to avoid such experiences Yet despite the widespread effects of real anticipated and even imagined rejections psychologists have devoted only passing attention to the topic and the research on rejection has been scattered throughout a number of psychological subspecialties including social clinical developmental and personality psychology This volume brings together contributors whose work is on the cutting edge of rejection research providing a readable overview of recent advances in the field In doing so it not only provides a look at the current state of the area but also helps to establish the topic of rejection as an identifiable area for future research

Responsibility Ann Elisabeth Auhagen, Hans-Werner Bierhoff, 2002-09-26 First Published in 2004 The importance of responsibility in the third millennium is increasing The rise of new technologies and related environmental hazards the problem of the neglect of poor and old people and the increase in violence and aggression in general indicate that responsibility is the characteristic which is of critical importance for the survival of modern democratic structures This volume integrates the many facets of responsibility and reviews the research on a scientific basis Responsibility is examined from different as well as interdisciplinary perspectives together with the applied aspects of responsibility solidarity volunteerism moral development Responsibility is made up of four parts introduction basic issues and domains of responsibility applications of responsibility and perspectives Responsibility brings together international researchers who emphasise empirical analysis but also examine the theoretical aspects of the topic
