Kröger,Melanie Anderson,2013-03-14

The Ghostly and the Ghosted in Literature and Film Spectral Identities is a collection of essays expanding the concepts of ghost and haunting beyond literary tools used to add supernatural flavor to include questions of identity visibility memory and trauma and history Using a wide scope of texts from varying time periods and cultures including fiction and film this collection explores the phenomenon of social ghosts What does it mean for example to be invisible to be a ghost particularly when that ghost is representative of a person or group living on the margins of society Why do specific types of ghosts tend to haunt certain cultures and or places What is it about a people s history that invites these types of hauntings The essays in this book like pieces of a puzzle approach the larger questions from diverse individual perspectives but taken together they offer a richly detailed composite discussion of what it means to be haunted
