## **Real Black Adventures In Racial Sincerity:**

Real Black John L. Jackson Jr.,2005-11-15 New York s urban neighborhoods are full of young would be emcees who aspire to keep it real and restaurants like Sylvia s famous soul food eatery that offer a taste of authentic black culture In these and other venues authenticity is considered the best way to distinguish the real from the phony the genuine from the fake But in Real Black John L. Jackson Jr proposes a new model for thinking about these issues racial sincerity Jackson argues that authenticity caricatures identity as something imposed on people imprisoning them within stereotypes turning them into racial objects and inanimate things instead of living breathing human beings Contending that such assumptions deny people agency not to mention humanity in their search for identity Jackson counterposes sincerity an internal and more productive analytical model for thinking about race Moving in and around Harlem and Brooklyn Jackson offers a kaleidoscope of subjects and stories that directly and indirectly address how race is negotiated in today s world including tales of name changing hip hop emcees book vending numerologists urban conspiracy theorists corrupt police officers mixed race neo Nazis and high school gospel choirs forbidden to catch the Holy Ghost Enlisting Anthroman his cape crusading critical alter ego Jackson records and retells these interconnected sagas in virtuosic detail and in the process shows us how race is defined and debated imposed and confounded every single day Listen Again Eric Weisbard,2007-11 Collection of essays on the history of pop music Which Sin to Bear? David E. Chinitz,2013-02-14 Langston Hughes survived as a writer for over forty years under conditions that made survival virtually heroic Determined on a literary career at a time when no African American had yet been able to live off his or her writing Hughes not only faced poverty and racism but found himself pressed by the conflicting hopes expectations and demands of readers and critics He relied on his skill as a mediator among competing positions in order to preserve his art his integrity and his unique status as the poetic voice of ordinary African Americans Which Sin To Bear explores Hughes s efforts to negotiate the problems of identity and ethics he faced as an African American professional writer and intellectual The book traces his early efforts to fashion himself as an authentic black poet of the Harlem Renaissance and his later imagining of a new and more inclusive understanding of authentic blackness It examines Hughes s lasting yet self critical commitment to progressive politics in the mid century years And it shows how in spite of his own ambivalence and at times anguish Hughes was forced to engage in ethical compromises to achieve his personal and social goals The book is also the first to analyze Hughes s executive session testimony before Joseph McCarthy s Senate Permanent Subcommittee on Investigations which was unavailable to the public for half a century David Chinitz digs into Hughes s creative work newspaper columns letters and unpublished papers to reveal a writer who faced a daunting array of dicey questions and intimidating obstacles and whose triumphs and occasional missteps are a fascinating and telling part of his legacy This Ain't Chicago Zandria F. Robinson,2014 This Ain t Chicago Race Class and Regional Identity in the Post Soul South What Can You Say? John Hartigan Jr.,2010-06-10 We are in a transitional moment in our

national conversation on race Despite optimistic predictions that Barack Obama's election would signal the end of race as an issue in America the race related news stories just keep coming Race remains a political and polarizing issue and the sprawling unwieldy and often maddening means we have developed to discuss and evaluate what counts as racial can be frustrating In *What Can You Say* John Hartigan Jr examines a watershed year of news stories taking these events as a way to understand American culture and challenge our existing notions of what is racial or not The book follows race stories that have made news headlines including Don Imus's remarks about the Rutgers women's basketball team protests in Jena Louisiana and Barack Obama's presidential campaign to trace the shifting contours of mainstream U S public discussions of race as they incorporate new voices words and images Focused on the underlying dynamics of American culture that shape this conversation this book aims to make us more fluent in assessing the stories we consume about race Advancing our conversation on race hinges on recognizing and challenging the cultural conventions governing the ways we speak about and recognize race In drawing attention to this curious cultural artifact our national conversation on race Hartigan ultimately offers a way to to understand race in the totality of American culture as a constantly evolving debate As this book demonstrates the conversation is far from over

**After Artest** David J. Leonard, 2012-04-24 On November 19 2004 a fight between NBA players Ron Artest and Ben Wallace escalated into a melee involving several other players and many fans The Palace Brawl writes David J Leonard was a seminal event one that dramatically altered outside perceptions of the sport With commentators decrying the hip hop or gangsta culture of players the blackness of the NBA was both highlighted and disdained This was a harsh blow to the league s narrative of colorblindness long cultivated by Commissioner David Stern and powerfully embodied in the beloved figure of Michael Jordan As Leonard demonstrates the league viewed this moment as a threat needing intervention quickly adopting policies to govern black players and prevent them from embracing styles and personas associated with blackness This

fascinating book discloses connections between the NBA's discourse and the broader discourse of antiblack racism. Particular policy changes that seemed aimed at black players such as the NBA dress code and the debate over a minimum age requirement are explored.

***Muslim Cool*** Su'ad Abdul Khabeer, 2016-12-06 Interviews with young Muslims in Chicago explore the complexity of identities formed at the crossroads of Islam and hip hop. This groundbreaking study of race, religion, and popular culture in the 21st century United States focuses on a new concept: Muslim Cool. Muslim Cool is a way of being an American Muslim displayed in ideas, dress, social activism in the hood, and in complex relationships to state power. Constructed through hip hop and the performance of Blackness, Muslim Cool is a way of engaging with the Black American experience by both Black and non-Black young Muslims that challenges racist norms in the U.S. as well as dominant ethnic and religious structures within American Muslim communities. Drawing on over two years of ethnographic research, Su'ad Abdul Khabeer illuminates the ways in which young and multiethnic U.S. Muslims draw on Blackness to construct their identities as Muslims. This is a form of critical Muslim self-making that builds on interconnections and intersections rather than divisions between Black and Muslim. Thus, by countering the notion that Blackness and the Muslim experience are fundamentally different, Muslim Cool poses a critical challenge to dominant ideas that Muslims are foreign to the United States and puts Blackness at the center of the study of American Islam. Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested, critical because they push back against the pervasive phenomenon of anti-Blackness and contested because questions of race, class, gender, and nationality continue to complicate self-making in the United States.

***Ethnographic Encounters in Israel*** Fran Markowitz, 2013-06-11 Essays on the challenges of anthropological work in a complicated country. A compelling anthology. Ruth Behar: Israel is a place of paradoxes, a small country with a diverse population and complicated social terrain. Studying its culture and social life means confronting a multitude of ethical dilemmas and methodological challenges. These first-person accounts by anthropologists engage contradictions of religion, politics, identity, kinship, racialization, and globalization to reveal fascinating and often vexing dimensions of the Israeli experience. Caught up in pressing existential questions of war and peace, social justice, and national boundaries, the contributors explore the contours of Israeli society as insiders and outsiders, natives and strangers, as well as critics and friends.

***The Cultural Turn in U. S. History*** James W. Cook, Lawrence B. Glickman, Michael O'Malley, 2012-06-12 A definitive account of one of the most dominant trends in recent historical writing. *The Cultural Turn in U.S. History* takes stock of the field at the same time as it showcases exemplars of its practice. The first of this volume's three distinct sections offers a comprehensive genealogy of American cultural history, tracing its multifaceted origins, defining debates, and intersections with adjacent fields. The second section comprises previously unpublished essays by a distinguished roster of contributors who illuminate the discipline's rich potential by plumbing topics that range from nineteenth-century anxieties about greenback dollars to confidence games in 1920s Harlem, from Shirley Temple's career to

the story of a Chicano community in San Diego that created a public park under a local freeway Featuring an equally wide ranging selection of pieces that meditate on the future of the field the final section explores such subjects as the different strains of cultural history its relationships with arenas from mass entertainment to public policy and the ways it has been shaped by catastrophe Taken together these essays represent a watershed moment in the life of a discipline harnessing its vitality to offer a glimpse of the shape it will take in years to come

**Your Average Nigga** Vershawn Ashanti Young, 2007-03-01 An engrossing autobiographical exploration of black masculinity as a mode of racial and verbal performance In Your Average Nigga Vershawn Ashanti Young disputes the belief that speaking Standard English and giving up Black English Vernacular helps black students succeed academically Young argues that this assumption not only exaggerates the differences between two compatible varieties of English but forces black males to choose between an education and their masculinity by choosing to act either white or black As one would expect from a scholar who is subject to the very circumstances he studies Young shares his own experiences as he exposes the factors that make black racial identity irreconcilable with literacy for blacks especially black males Drawing on a range of interdisciplinary scholarship in performance theory and African American literary and cultural studies Young shows that the linguistic conflict that exists between black and white language styles harms black students from the inner city the most If these students choose to speak Standard English they risk alienating themselves from their families and communities and if they choose to retain their customary speech and behavior they may isolate themselves from mainstream society Young argues that this conflict leaves blacks in the impossible position of either trying to be white or forever struggling to prove that they are black enough For men this also becomes an endless struggle to prove that they are masculine enough Young calls this constant effort to display proper masculine and racial identity the burden of racial performance Ultimately Young

argues that racial and verbal performances are a burden because they cannot reduce the causes or effects of racism nor can they denaturalize supposedly fixed identity categories as many theorists contend On the contrary racial and verbal performances only reinscribe the essentialism that they are believed to subvert Scholars and teachers of rhetoric performance studies and African American studies will enjoy this insightful volume      **Balancing Acts** Natasha Kumar Warikoo, 2011-02-09 In this timely examination of children of immigrants in New York and London Natasha Kumar Warikoo asks Is there a link between rap hip hop influenced youth culture and motivation to succeed in school Warikoo challenges teachers administrators and parents to look beneath the outward manifestations of youth culture the clothing music and tough talk to better understand the internal struggle faced by many minority students as they try to fit in with peers while working to lay the groundwork for successful lives Using ethnographic survey and interview data in two racially diverse low achieving high schools Warikoo analyzes seemingly oppositional styles tastes in music and school behaviors and finds that most teens try to find a balance between success with peers and success in school
