## **Real Feelings Heaven On Earth:**

**Real Feelings** Brother Bob,1996      *The Taoist I Ching* Lui I-ming,2005-05-03 The I Ching or Book of Change is considered the oldest of the Chinese classics and has throughout history commanded unsurpassed prestige and popularity. Containing several layers of text and given numerous levels of interpretation it has captured continuous attention for well over two thousand years. It has been considered a book of fundamental principles by philosophers, politicians, mystics, alchemists, yogins, diviners, sorcerers, and more recently by scientists and mathematicians. This first part of the present volume is the text of the I Ching proper: the sixty-four hexagrams plus sayings on the hexagrams and their lines with the commentary composed by Liu I-ming, a Taoist adept in 1796. The second part is Liu I-ming's commentary on the two sections added to the I Ching by earlier commentators, believed to be members of the original Confucian school; these two sections are known as the Overall Images and the Mixed Hexagrams. In total, the book illuminates the Taoist inner teachings as practiced in the School of Complete Reality. Well-versed in Buddhism and Confucianism as well as Taoism, Liu I-ming intended his work to be read as a guide to comprehensive self-realization while living an ordinary life in the world. In his attempt to lift the veil of mystery from the esoteric language of the I Ching, he employs the terminology of psychology, sociology, history, myth, and religion. This commentary on the I Ching stands as a major contribution to the elucidation of Chinese spiritual genius.      **Confucianism, Buddhism, Daoism, Christianity and Chinese Culture** Yijie Tang,2015-02-06 This book collects the 25 most important articles written by Professor Tang since the 1980s, dealing extensively with issues of Confucianism, Buddhism, Daoism, Christianity, and Chinese culture. In these articles, Professor Tang proves his value as a worthy successor to the Chinese philosophical tradition while also open to the latest trends of thought both at home and abroad. The late Professor Tang Yijie (1927-2014) was a prominent professor at Peking University and China's top scholar on philosophy and Chinese studies. He spearheaded the Confucian Canon project, which seeks to compile all known classical works on Confucianism, comparable in scope and significance to the Complete Library of the Four Treasuries, the largest collection of books on Chinese history, which was commissioned by the Qianlong Emperor in the 18th century. Throughout his life, Professor Tang published scores of books and more than one hundred articles, offering enlightening insights into how to deal with issues that have historically troubled and continue to trouble people in modern society. Among his numerous innovations, Professor Tang is especially remembered for introducing the concept of harmony in diversity. In the context of the clash of civilizations championed by Samuel P. Huntington, Tang argued for harmony in diversity, holding that this principle can offer some clues to help enable peoples, nations, and regions with different cultural traditions to develop together while remaining unique.
