

The background of the entire image is a dark, textured surface, possibly a wall or a piece of fabric, with a mottled appearance of brown, black, and grey. Overlaid on this is a close-up of a woman's face, which is the central focus. Her hair is long and blonde, and her eyes are a light, golden-brown color. The lighting is dramatic, coming from the side, which casts one side of her face into shadow while the other is brightly lit with a warm, orange-yellow glow. This lighting creates a strong contrast and highlights the texture of her skin and hair. The overall mood is somber and intense.

Sank, C.S. Shaffer, 2012-12-06 One of the great advantages of rational emotive therapy RET and cognitive behavior therapy CBT is that they frequently employ psycho educational methods including bibliotherapy workshops lectures courses recordings and films I created RET at the beginning of 1955 after I had abandoned the practice of psychoanalysis because I found it to be highly inefficient and philosophically superficial Being almost addicted to one to one therapy as a result of my analytic training and experience I at first did RET only with individual clients and found this pioneering form of CBT considerably more effective than the other therapies with which I had experimented By 1957 however I realized that RET could be taught to large numbers of persons through self help books and articles and that RET oriented writings could not only prove valuable to the general public but that they could also be successfully employed to hasten and intensify the therapy of my individual clients I therefore wrote a number of RET self help books especially *How to Live with a Neurotic* 1957 *Sex without Guilt* 1958 *A New Guide to Rational Living* with Robert A Harper original edition 1961 and *A Guide to Successful Marriage* with Robert A Harper 1961 The Oxford Handbook of

Entertainment Theory Peter Vorderer, Christoph Klimmt, 2021-02-12 The proliferation of new digital technologies has given rise to an entirely changed media landscape and revolutionized how we seek entertainment Older entertainment media like novels radio and film have been joined by a host of digital media that smartphones allow us to carry almost anywhere and at all times from video games and social media to video on demand services This unprecedented ubiquity of entertainment media calls for new and more sophisticated theories that help us understand the fascination that different entertainment media exert on us and how they change the human experience The Oxford Handbook of Entertainment Theory surveys and furthers the most influential psychology driven research on media entertainment to illuminate how people are drawn into media experiences The 41 chapters in this Handbook not only offer fresh perspectives on established theories but also introduce emerging models and highlight the importance of considering the diverse backgrounds of media users when conducting research They also cover the motivations and reactions of media users in relationship to different types of media the trend towards interactive media such as video games and virtual reality and particularly popular media contents like sexuality violence sports and the news As the most comprehensive overview of psychology based research on media entertainment available this Handbook is an invaluable resource for seasoned researchers and those beginning to learn about the field alike
