The Healing of Nations Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting *Redeeming Your Painful Past* Stephen Viars, 2012-10-01 Do you ever feel like your past is haunting you Maybe it's a mistake you made that can't be made right or something that was done to you that can never be undone You see the

effects of it in your daily life but struggle to know how to move forward Sometimes you manage to forget for awhile but it feels like you are never completely free of **Exclusion & Embrace** Miroslav Volf,2010-03-01 Life at the end of the twentieth century presents us with a disturbing reality Otherness the simple fact of being different in some way has come to be defined as in and of itself evil Miroslav Volf contends that if the healing word of the gospel is to be heard today Christian theology must find ways of speaking that address the hatred of the other Reaching back to the New Testament metaphor of salvation as reconciliation Volf proposes the idea of embrace as a theological response to the problem of exclusion Increasingly we see that exclusion has become the primary sin skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our ever narrowing circle In light of this Christians must learn that salvation comes not only as we are reconciled to God and not only as we learn to live with one another but as we take the dangerous and costly step of opening ourselves to the other of enfolding him or her in the same embrace with which we have been enfolded by God

Will the Future Redeem the Past? Charles Habib Malik,1960 *Redeeming the Past* David A. Seamands,2002

Theology of Reconciliation in the Context of Church Relations Rula Khoury Mansour,2020-01-31 Christians are called to be peacemakers in a world rife with conflict but how should Christians respond when the source of strife is not outside the church but within it Built on an in depth analysis of three Palestinian church splits this text examines the cultural and theological implications of intra church conflict in Arab evangelical communities in Israel Translating Miroslav Volf s formative theology of reconciliation into her contemporary Palestinian context Dr Rula Khoury Mansour provides a critical evaluation of both Volf s theory and Palestinian peacemaking models Through her research and analysis Dr Mansour develops a Middle Eastern theology of reconciliation and encourages congregations around the world to develop greater cultural and theological awareness in their quest to experience lasting peace within their churches and wider communities

Healing of Memories David A. Seamands,1985 Alternate title *Redeeming the past* **Exclusion and Embrace, Revised and Updated** Miroslav Volf,2019-08-20 Life in the twenty first century presents a disturbing reality Otherness the simple fact of being different in some way has come to be defined as in and of itself evil Miroslav Volf contends that if the healing word of the gospel is to be heard today Christian theology must find ways of speaking that address the hatred of the other Is there any hope of embracing our enemies Of opening the door to reconciliation Reaching back to the New Testament metaphor of salvation as reconciliation Volf proposes the idea of embrace as a theological response to the problem of exclusion Increasingly we see that exclusion has become the primary sin skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our ever narrowing circle In light of this Christians must learn that salvation comes not only as we are reconciled to God and not only as we learn to live with one another but as we take the dangerous and costly step of opening ourselves to the other of enfolding him or her in the same embrace with which we have been enfolded by God Volf won the 2002 Louisville Grawemeyer Award in Religion for the first edition of his book *Exclusion*

Embrace A Theological Exploration of Identity Otherness and Reconciliation Abingdon 1996 In that first edition professor Volf a Croatian by birth analyzed the civil war and ethnic cleansing in the former Yugoslavia and he readily found other examples of cultural ethnic and racial conflict to illustrate his points Since September 11 2001 and the subsequent epidemic of terror and massive refugee suffering throughout the world Volf revised Exclusion and Embrace to account for the evolving dynamics of inter ethnic and international strife

Narrating the Past A. Robinson,2011-10-04 In recent years controversy has surrounded the narrative turn in history and the historical turn in fiction This book clarifies what is at stake tracing connections between historiography and life writing arguing that the challenges posed in representing the past illuminate issues which are central to all literary narrative

Well-Being Ben Bradley,2015-08-20 The concept of well being plays a central role in moral and political theory Policies and actions are justified or criticized on the grounds that they make people better or worse off But is there really such a thing as well being and if so what is it Is it pleasure desire satisfaction knowledge virtue achievement some combination of these or something else entirely How can we measure well being amongst individuals and society And how can we use it to make moral judgements about people policies and institutions In this entertaining and accessible new book Ben Bradley guides readers through the various philosophical theories of well being such as hedonism perfectionism and pluralism showing the benefits and drawbacks of each theory He explores the role of well being in moral and political theory and the limitations of welfare based approaches to ethics such as utilitarianism and welfare egalitarianism Finally he introduces puzzles about well being that arise in moral and prudential deliberations about procreation and death Well Being is an ideal introduction to these topics for those with no philosophical background or for philosophers looking for an overview of current thinking about the subject

Bodies of Meaning David McNally,2001-01-01 Challenges postmodernist theories of language and politics which detach language from human bodies and their material practices

Human Rights and the Negotiation of American Power Glenn Mitoma,2013-04-29 Through careful archival research Glenn Mitoma reveals how the U S government key civil society groups Cold War politics and specific individuals led to America s emergence in the twentieth century as an ambivalent yet central player in establishing an international rights ethic

Hothouse Utopia Ryan Gunderson,2021-10-29 What is to be done when the future s already ablaze With the international spread of right wing populism widening inequalities precarious forms of labor becoming normative surveillance capitalism and a worsening ecological crisis the future is bleak One issue in particular the likelihood of catastrophic climate change coupled with the lack of a global movement with the organization and vision to effectively challenge our suicidal social order yields the crushing awareness that future generations will be trapped in prehistory one in which humanity continues to be dominated by its own creations instead of shaping the historical process in line with reason Expanding upon the ideas of Theodor W Adorno Ernst Bloch Lucien Goldmann and others Ryan Gunderson examines the modes of action and thought through which we react to the likelihood of a catastrophic future in ways that reproduce instead

of challenge the status quo and how we can instead productively sustain the search for a better world against all odds

Reclaiming Narrative for Public Theology Mary Doak, 2012-02-01 This book furthers the development of American public theology by arguing for the importance of narrative to a theological interpretation of the nation's social and political life. In contrast to both sectarian theologies that oppose a diverse public life and liberal theologies that have lost their distinctiveness, narrative public theology seeks an engaged yet critical role consistent with the separation of church and state and respectful of the multireligious character of the United States. Mary Doak argues for a public theology that focuses on the narrative imagination through which we envision our current circumstances and our hopes for the future. This theology sees both our national stories and our religious ones as resources that can contribute to a public and pluralistic conversation about the direction of society. Doak highlights arguments from Paul Ricoeur, Johann Baptist Metz, William Dean Stanley, Hauerwas, Franklin Gamwell, and Ronald Thiemann that can both contribute to and challenge a narrative public theology. She also proposes a model of public theology using narratives from Abraham Lincoln, Virgil Elizondo, and Delores Williams.

Redeeming the Past Michael Lapsley, Stephen Karakashian, 2012 **Affective Mapping** Jonathan FLATLEY, Jonathan Flatley, 2009-06-30 The surprising claim of this book is that dwelling on loss is not necessarily depressing. Instead, embracing melancholy can be a road back to contact with others and can lead people to productively remap their relationship to the world around them. Flatley demonstrates that a seemingly disparate set of modernist writers and thinkers showed how aesthetic activity can give us the means to comprehend and change our relation to loss.

Movements in Time Natalie Churn, Cecile Lawrence, 2013-01-14 2011 was a tumultuous year in terms of social protest movements. The Occupy movement spread across the globe with unprecedented support of an enormity not seen since 1968, while revolutions in Egypt, Tunisia, Morocco, Syria, and Libya caught the attention of the global media and brought the word revolution back into public discussions on social justice and governance. For many people worldwide, it appears that it is time for social, political, and economic change. And it is precisely time in all its forms, which cannot be ignored in this context. As something that surrounds us and affects every aspect of our lives, time is at once a tool for control, for order, for emancipation, for understanding the future and the past, and measuring degrees of freedom and quality of life in the present. This book brings together essays from fields such as politics, cultural studies, and philosophy in order to reinterpret and reorient current thinking on the possibilities for new understandings of concepts of time to bring

about social change History as the passing of time clock time the exchange value of time qualitative time and alternative or marginal notions of temporality are analysed through the lens of various theoretical thinkers and applied to a multitude of political and social case studies Breaking away from traditional notions of time as linear and against common socially constructed understandings of time these essays suggest that new conceptions of time can have a major influence on creating a more just tolerant world
