Redesigning Library Services A Manifesto:

De honderd en een stellingen gedoemt door de bulle van Clemens XI. beginnende met het woord Unigenitus, uitgegeven den 8. September 1713 ... ,1720 **Reimagining the Academic Library** David W. Lewis,2016-05-04 Academic libraries are in the midst of significant disruption Academic librarians and university administrators know they need to change but are not sure how Bits and pieces of what needs to happen are clear but the whole picture is hard to grasp Reimagining the Academic Library paints a simple straightforward picture of the changes affecting academic libraries and what academic librarians need to do to respond to the changes would help to guide future library practice The aim is to explain where academic libraries need to go and how to get there in a book that can be read in a weekend David Lewis provides a readable survey of the current state of academic library practice and proposes where academic libraries need to go in the future to provide value to their campuses His primary focus is on collections as this is the area with the greatest opportunity for change and is the driver of most library cost Lewis provides an accessible framework for thinking about how library practice needs to adjust in the digital environment The book will be useful not only to academic librarians but also for librarians to share with presidents and provosts who a concise source for understanding where and how to focus their expenditures on libraries Planning Our Future Libraries Kim Leeder,Eric Frierson,2013-11-12 This thought provoking collection will challenge librarians at every kind of institution to start planning today for the library of tomorrow *Libraries as User-centered Organizations* Meredith A. Butler,1993 How do we begin to assess the impact of economic technological demographic and management trends in our environment and understand the long term implications How can administrators managers and information professionals take advantage of these trends How can librarians empower staff and change organizational hierarchies to create more responsive and rewarding environments How do we restructure organizations to make them more learning and student centered and more responsive to the needs of new clienteles These are just a few of the questions addressed in *Libraries as User Centered Organizations* which examines organizational change from the point of view that academic institutions are experiencing a paradigm shift in the definition of their mission their focus and their activities As librarians move into a new paradigm of library as gateway and connector they must also shift their focus from the information product to the user of information This profound change in vision is explored in this book through the concept of user centeredness a focus on the habits needs desires dislikes abilities and preferences of the user *Libraries as User Centered Organizations* explores a variety of important aspects of organizational change including leadership styles sustaining and expanding staff empowerment and creativity collaboration between libraries and computer centers creating multicultural organizations remolding the library science educational structure organizational change in professional associations *Libraries as User Centered Organizations* looks at current trends affecting higher education research libraries professional education for librarians professional associations and publishing from the point of view of some of the leaders in

these fields and offers readers a context for viewing organizational change The book is of particular assistance to library administrators and educators engaged in planning for change and rethinking operations and services *Information Tomorrow* Rachel Singer Gordon,2007 In *Information Tomorrow* Rachel Singer Gordon brings together 20 of today's top thinkers on the intersections between libraries and technology They address various ways in which new technologies are impacting library services and share their ideas for using technology to meet patrons where they are In addition to a preface by the editor the book's foreword by Stephen Abram and 16 chapters feature insights and opinions from these library leaders bloggers and futurists

Our Enduring Values Revisited: Librarianship in an Ever-Changing World Michael Gorman,2015-03-16 In the almost 15 years since *Our Enduring Values* was published there has been a sea change in the way much of the world thinks about and uses libraries Young librarians and seasoned LIS professionals alike are experiencing increasing pressure to adjust to new economic societal and technological demands amidst the often dire rhetoric currently surrounding the future of our institutions In this stirring manifesto public intellectual librarian and philosopher Gorman addresses head on the

Herring, 2015-01-09
