The Rediscovery of Greece

TRAVELLERS AND PAINTERS OF THE ROMANTIC ERA

Introduction by Sir Steven Runciman

CARATZAS BROTHERS, PUBLISHERS
NEW ROCHELLE, NEW YORK 1061

Rediscovery Of Greece

Constanze Guthenke

Rediscovery Of Greece:

The Rediscovery of Greece Fani-Maria Tsigakou,1981 **The Rediscovery of Greece** Jette Christiansen,2000

The Rediscovery of Greece Fine Art Society,1979 The Rediscovery of Greece Jette Christiansen,2000 *The Discovery of Greece* Fani-Maria Tsigakou,1981 **The Classical Archaeology of Greece** Michael Shanks,2003-09-02

Archaeologists do not discover the past but take the fragmentary remains which they recover and make something of them Archaeology is a process of detection and supposition this is what makes it so fascinating However the interpretations of archaeologists differ and change over time They depend upon the amount of evidence available the ideas and preconceptions of the archaeologist and their interests and aims Michael Shanks s enlivening work is a guide to the discipline of classical archaeology and its objects It assesses archaeology as a means of reconstructing ancient Greek society using the latest approaches of social archaeology In addition *The Classical Archaeology of Greece* outlines the history of the discipline and discusses why Classical Greece continues to fascinate us and why it has had such an impact on European civilization and identity The Rediscovery of Greece Jette Christiansen,1956 **Encyclopedia of Ancient Greece** Nigel Guy

Wilson,2006 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece **Ancient Greece** Don Nardo,2009-03-13 This volume presents compelling entries that provide definitions of important terms biographies of central figures and brief narratives of pivotal events that transformed ancient Greece Students will find quick and easily accessible answers to the difficult questions that arise while researching events personalities and issues of Greece s past A comprehensive bibliography offers further avenues for research **The**

Discovery of Ottoman Greece Richard Calis,2025-01-14 *The Discovery of Ottoman Greece* unearths forgotten research by the early modern philhellenist and Lutheran reformer Martin Crusius His extensive study of Greek Orthodox life including interviews with traveling alms seekers sheds light on European views of Greek decline under Ottoman rule as well as on the global ambitions of Lutheran reform *Political and Cultural Aspects of Greek Exoticism* Panayis Panagiotopoulos,Dimitris P. Sotiropoulos,2019-07-13 This book explores the new Greek exoticism by examining political and cultural mechanisms that contribute to Greece s image and self image construction The contributions shed light on the subject from different perspectives including political science history of ideas sociology cultural studies and art criticism In the first part the book provides a historical review with a focus on philhellenism perceptions of antiquity and modernity and the evolution of Greece as an idea The second part looks at the current Greek crisis and analyses ideological political and cultural aspects and

stereotypes that contributed to the formation of contemporary Greek culture The third and final part discusses notions such as aestheticism idealism and pragmatism and deconstructs narrations of Greece through artistic media such as films and exhibitions which present a new oriental Utopia *Italy's Lost Greece* Giovanna Ceserani,2012-02-07 Italy's Lost Greece reveals the untold story of the modern engagement with Magna Graecia the region of ancient Greek settlement in South Italy and provides a unique perspective on the humanist investment in the ancient past the evolution of modern Hellenism and the making of the discipline of classical archaeology *Greece from Junta to Crisis* Dimitris Tziovas,2021-06-17 Winner of the 2021 European Society of Modern Greek Studies Book Prize Shortlisted for the 2022 Runciman Award The recent economic crisis in Greece has triggered national self reflection and prompted a re examination of the political and cultural developments in the country since 1974 While many other books have investigated the politics and economics of this transition this study turns its attention to the cultural aspects of post dictatorship Greece By problematizing the notion of modernization it analyzes socio cultural trends in the years between the fall of the junta and the economic crisis highlighting the growing diversity and cultural ambivalence of Greek society With its focus on issues such as identity antiquity religion language literature media cinema youth gender and sexuality this study is one of the first to examine cultural trends in Greece over the last fifty years Aiming for a more nuanced understanding of recent history the study offers a fresh perspective on current problems *Travel, Discovery, Transformation* Gabriel R. Ricci,2017-09-29 This latest volume in the Culture Civilization series gathers interdisciplinary voices to present a collection of essays on travel and travel narratives The essays span a range of topics from iconic ancient travel stories to modern tourism They discuss travel in the ancient world modern heroic travels the literary culture of missionary travel the intersection of fiction and travel narratives modern literary traditions and visions of Greece personal identity and expatriation Essays also address travel memoirs the re imagining of worlds through travel transformed landscapes and animals in travel narratives diplomacy English women travel writers and pilgrimage and health in the medieval world The history of travel writing takes in multiple pursuits exploration and conquest religious pilgrimage and missionary work educational tourism and diplomacy scientific and personal discovery and natural history and oral history As a literary genre it has enhanced a wide range of disciplines including geography ethnography anthropology and linguistics Moreover twenty first century interests in travel and travel writing have produced a global framework that promises to expand travel's theoretical reach into the depths of the Internet thus challenging our conventional concept of what it means to travel The fact that travel and travel writing have a prehistory that is embedded in foundational religious texts and ancient narratives of journey like the Odyssey and the Epic of Gilgamesh makes both travel and travel writing fundamental and essential expressions of humanity Travel encourages writing particularly as epistolary and poetic chronicling This is clearly a history and tradition that began with human communication and which has kept pace with our collective development Placing Modern Greece Constanze Guthenke,2008-02-07 Placing Modern Greece is about

literary representations of Greece in the period of Romanticism encompassing the time in the 1820s when it became a territorial and political reality as a nation state Constanze Guthenke claims that the imagining of and attitude towards Greece was shaped by a fascination with the material and by the highly conceptualized tension between the ideal on the one hand and the material on the other Her study focuses on nature and landscape imagery as vehicles of representation on their specific inner workings and on their dynamic which conditions how and whether Greece as a modern entity in the making can be represented at all Offering readings from German and contemporaneous Greek authors Guthenke supplies a commentary on the translation and crossings of representational models and their limits *European Literatures in Britain, 18-15-1832: Romantic Translations* Diego Saglia, 2019 Sheds new light on the presence and impact of Continental European literary traditions in post Napoleonic Britain

The British Council and Anglo-Greek Literary Interactions, 1945-1955 Peter Mackridge, David Ricks, 2018-04-17 In the immediate aftermath of the Second World War and with British political influence over Greece soon to be ceded to the United States there was a considerable degree of cultural interaction between Greek and British literati Sponsored or assisted by the British Council this interaction was notable for its diversity and quality alike Indeed the British Council in Greece made a more significant contribution to local culture in that period than at any other time and perhaps in any other country Many of the participants among them Patrick Leigh Fermor Steven Runciman and Louis MacNeice are well known while others deserve to be better known than they are today But what has been less fully discussed and what the volume sets out to do is to explore the two way relations between Greek and British literary production in which the British Council played a particularly important role until the outbreak of armed conflict in Cyprus in 1955 which rendered further contacts of this kind difficult Close attention is paid to the variety of ways marked by personal affinities and allegiances but also by political tensions in which the British Council functioned as an agent of interaction in a climate where a complex blend of traditional Anglophilia or Philhellenism found itself encountering a new post war and Cold War environment What is distinctive about the volume beyond the inclusion of much recent archival research is its attention to the British Council as part of the story of Greek letters and not just as a place in which various British men and women of letters worked The British Council found itself sometimes more through improvisation and personal affinities than through careful planning at the heart of some key developments notably in terms of important periodical publications which had a lasting influence on Greek letters Though in the cultural forum that influence was arguably to be less pervasive than that of France with its more ambitious cultural outreach or than that of the USA in later decades the role of the British Council in Greece in this crucial period of Greek and indeed European post war history continues to make a rich case study in cultural politics This volume thus fills a gap in the rich bibliography on Anglo Greek relations and contributes to a wider scholarly and public discussion about cultural politics *Autopsy in Athens* Margaret M. Miles, 2015-07-24 This is an exciting time to study in Athens The rescue excavations of recent years conducted during

construction of the Metro system and in preparation for the 2004 Olympics Games combined with major restoration projects and a new enthusiasm for fresh examination of old material using new techniques and applications brings new perspectives and answers on many aspects of the ancient city of Athens and life politics and religion in Attica The 15 papers presented here contribute new findings that result from intensive firsthand examinations of the archaeological and epigraphical evidence They illustrate how much may be gained by reexamining material from older excavations and from the methodological shift from documenting information to closer analysis and larger historical reflection They offer a variety of perspectives on a range of issues the ambiance of the ancient city for passersby filled with roadside shrines techniques of architectural construction and sculpting religious expression in Athens including cults of Asklepios and Serapis the precise procedures for Greek sacrifice how the borders of Attica were defined over time and details of its road system In presenting this volume the contributors are continuing in a long tradition of autopsy in the sense of personal observation in Athens that began even in the Hellenistic period and has continued through the writings of centuries of travelers and academics to the present day

Classics Mary Beard, John Henderson, 2000-02-24 This Very Short Introduction to Classics links a haunting temple on a lonely mountainside to the glory of ancient Greece and the grandeur of Rome and to Classics within modern culture from Jefferson and Byron to Asterix and Ben Hur We are all Classicists we come into touch with the Classics daily in our culture politics medicine architecture language and literature What are the true roots of these influences however and how do our interpretations of these aspects of the Classics differ from their original reception This introduction to the Classics begins with a visit to the British Museum to view the frieze which once decorated the Apollo Temple at Bassae Through these sculptures John Henderson and Mary Beard prompt us to consider the significance of Classics as a means of discovery and enquiry its value in terms of literature philosophy and culture and its importance as a source of imagery ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Art of Persuasion: From Ancient Greece to Modern Theory DOYLE ABRAHAM, 2024-06-27 This comprehensive exploration of rhetoric and persuasion spans from its early origins in ancient Greece to its modern day applications in digital media and neuroscience Beginning with the foundational contributions of Aristotle and the adaptation of Greek rhetoric by the Romans the book traces the evolution of persuasive techniques through medieval education Renaissance politics Enlightenment philosophies and the emergence of social psychology It examines key theoretical frameworks such as the Elaboration Likelihood Model and Heuristics and Biases Approach exploring their roles in cognitive shortcuts and influence theories Contemporary issues including the impact of digital media social influence online and ethical considerations in persuasion are also critically analyzed offering insights into emerging trends and interdisciplinary approaches shaping

current persuasion research
