**Reel Latinxs** Frederick Luis Aldama, Christopher González, 2019-09-24 Latinx representation in the popular imagination has infuriated and befuddled the Latinx community for decades. These misrepresentations and stereotypes soon became as American as apple pie. But these cardboard cutouts and examples of lazy storytelling could never embody the rich traditions and histories of Latinx peoples. Not seeing real Latinxs on TV and film reels as kids inspired the authors to dive deep into the world of mainstream television and film to uncover examples of representation good and bad. The result is a riveting ride through televisual and celluloid reels that make up mainstream culture. As pop culture experts Frederick Luis Aldama and Christopher González show, the way Latinx peoples have appeared and are still represented in mainstream TV and film narratives is as frustrating as it is illuminating. Stereotypes such as drug lords, petty criminals, buffoons, and sexed-up lovers have filled both small and silver screens and the minds of the public. Aldama and González blaze new paths through Latinx cultural phenomena that disrupt stereotypes, breathing complexity into real Latinx subjectivities and experiences. In this grand sleuthing sweep of Latinx representation in mainstream TV and film that continues to shape the imagination of U.S. society, these two Latinx pop culture authorities call us all to scholarly action.

**Technology Innovations for Behavioral Education** Mary Banks Gregerson, 2011-05-03 Behavioral and technological innovation has a special place in the future of graduate and medical education, both for students and for educators. A new multi-media pedagogy offers innovative techniques and technologies drawing widely upon behavioral science. The psychology of multi-media education maximizes learning by involving many different sensory modalities. Although multi-media has long meant use of film and other electronic modality adjuncts like Powerpoint, newer technologies expand these horizons further. Now multi-media pedagogy means not only newer technologies but also newer and different education techniques. This book describes psychology innovation currently making educational settings competent and competitive. Student choice rules in education today. The technologically driven environment produces students whose preference is incumbent on electronic research means. Besides using these tools themselves, students thirst for multi-media pedagogy in the classroom, online, and on campus. It is therefore teachers who close the digital divide between generations in order to educate effectively. Approaches using new technologies and

techniques have proven successful internationally with diverse audiences      Making Movies Black Thomas Cripps,1993-05-20 This is the second volume of Thomas Cripps s definitive history of African Americans in Hollywood It covers the period from World War II through the civil rights movement of the 1960s examining this period through the prism of popular culture Making Movies Black shows how movies anticipated and helped form America s changing ideas about race Cripps contends that from the liberal rhetoric of the war years marked as it was by the propaganda catchwords brotherhood and tolerance came movies that defined a new African American presence both in film and in American society at large He argues that the war years more than any previous era gave African American activists access to centers of cultural influence and power in both Washington and Hollywood Among the results were an expanded black imagery on the screen during the war in combat movies such as Bataan Crash Dive and Sahara musicals such as Stormy Weather and Cabin in the Sky and government propaganda films such as The Negro Soldier and Wings for this Man narrated by Ronald Reagan After the war the ideologies of both black activism and integrationism persisted resulting in the message movie era of Pinky Home of the Brave and No Way Out a form of racial politics that anticipated the goals of the Civil Rights Movement Delving into previously inaccessible records of major Hollywood studios among them Warner Bros RKO and 20th Century Fox as well as records of the Office of War Information in the National Archives and records of the NAACP and interviews with survivors of the era Cripps reveals the struggle of both lesser known black filmmakers like Carlton Moss and major figures such as Sidney Poitier More than a narrative history Making Movies Black reaches beyond the screen itself with sixty photographs many never before published which illustrate the mood of the time Revealing the social impact of the classical Hollywood film Making Movies Black is the perfect book for those interested in the changing racial climate in post World War II American life      **The Cinematic Mirror for Psychology and Life Coaching** Mary Banks Gregerson,2009-12-12 Cinema both reflects life and contours life that is its psychological power And for decades clinicians and educators have recognized the value of this power using it to respectively heal in therapy and educate in the classroom The Cinematic Mirror for Psychology and Life Coaching mines the illustrative value of cinema offering therapists and life coaches access to ideas that can motivate and enlighten clients Although many movie guides exist this volume complements the available literature by adding positive psychology mental health and wellness perspectives to the clinical educational coaching mix The serious intent to cull from cinema its underlying psychological value has motivated noted clinicians life coaches and cultural critics to offer science based analysis and intervention strategies Readers may add their own movie insights and professional expertise to this rich foundation The volume covers international as well as domestic cinema in a variety of genres providing a range of film choices relevant to clients lives Beyond this it expands on universal concepts of strengths capabilities and coping methods Chapters in The Cinematic Mirror analyze how movies can create and relieve trauma challenge Hollywood s portrayal of the American family overview the use of movies to examine relationships in therapy explore the acclaimed Up television cinema
