Grant, 2012-12-06 The National Association for Multicultural Education NAME held its 7th Annual Conference in 1997 with a theme of Daring to Educate for Equity and Excellence A Multicultural and Bilingual Mandate for the 21st Century The conference generated scholarship in the form of keynote speeches and conference papers and stimulating discussions among the membership The conference's southwest location of Albuquerque New Mexico provided an excellent back drop to discuss the interconnections between multicultural education and bilingual education as well as provide an opportunity for proponents of both of these important ideas to engage in useful and important discussions The essays comprised in this book capture much of the written record of the conference They convey ideas beliefs and research findings that were presented at the formal sessions at the conference Just as with NAME's previous proceedings it is expected that these proceedings will become not only a written record of the conference but a live curriculum to help pre K through college educators to prepare themselves and those they teach for the 21st century      **The Language Police** Diane Ravitch, 2007-12-18 If you're an actress or a coed just trying to do a man size job a yes man who turns a deaf ear to some sob sister an heiress aboard her yacht or a bookworm enjoying a boy's night out Diane Ravitch's internationally acclaimed *The Language Police* has bad news for you Erase those words from your vocabulary Textbook publishers and state education agencies have sought to root out racist sexist and elitist language in classroom and library materials But according to Diane Ravitch a leading historian of education what began with the best of intentions has veered toward bizarre extremes At a time when we celebrate and encourage diversity young readers are fed bowdlerized texts devoid of the references that give these works their meaning and vitality With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring *The Language Police* offers a powerful corrective to a cultural scandal      *Communication, Race, and Family* Thomas J. Socha, Rhunette C. Diggs, 1999-08 This volume examines how family communication affects our understanding of race and race relations For scholars studying diversity issues intercultural communication family communication and related areas      **The Death and Resurrection of a Coherent Literature Curriculum** Sandra Stotsky, 2012-06-16 This book is addressed to teachers who know that the secondary literature curriculum in our public schools is in shambles Unless experienced and well read English teachers can develop coherent and increasingly demanding literature curricula in their schools average high school students will remain at about the fifth or sixth grade reading level where they now are to judge from several independent sources This book seeks to challenge education policy makers test developers and educators who discourage the assignment of appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible It first traces the history of the literature curriculum in our middle schools and high schools and shows how it has been

diminished and distorted in the past half century It then offers examples of coherent literature curricula and spells out the cognitive principles upon which coherence is based Finally it suggests what English teachers in our public schools could do to develop a literature curriculum that gives all their students an adequate basis for participation in an English speaking civic culture     Using Formative Assessment to Support Student Learning Objectives M. Christina Schneider,Robert L.

Richards,1998-02-13 Beyond

Training examines the nature of second language teacher development and how teachers practices are influenced by their beliefs and principles It seeks to move discussion of language teacher development beyond the level of training which reflects a technical view of specific teaching practices Instead it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques but in an exploration of the knowledge beliefs and attitudes that underly their teaching practices     **Principles and Methods of Test Construction** Karl Schweizer,Christine

**Global Perspectives in the Geography Curriculum** Alex Standish,2008-10-07 For geographers across the globe this book provides the arguments for a return to the teaching of geography and why they should reject the politicisation of the subject by education policy makers and politicians Standish s careful critique shows the necessity of a depoliticised geography curriculum the irony of which would be that it would ensure that every child could point to Iraq Iran and Afghanistan on a map Prof Dennis Hayes Oxford Brookes University UK A prescient and critical analysis of the changing face of geography teaching This book deserves to be widely read and debated Alex Standish s book puts current trends in geography teaching in historical and critical context It comprises a forthright and timely defence of geographical education for its own sake Dr Jim Butcher FRSA Department of Sport Science Tourism and Leisure Canterbury Christ Church University Since the early 1990s educational policy makers and some subject leaders have been seeking to fundamentally change the teaching of geography in UK and US schools from a subject which encourages students to explore spatial concepts ideas and skills to a more ethics based subject concerned with the promotion of environmentalism cultural diversity and social justice In this book the new approach is critically examined within a historical and ideological context addressing a

number of fundamental questions Should geography be used as a tool for the delivery of citizenship ideals How does this affect the intellectual and moral value of geographical education for young people If the state and teachers are taking more responsibility for the values attitudes and emotional responses of students how will they learn to develop these qualities for themselves If global perspectives shift the focus of education from learning about the outside world to learning about the self what is its vision of social progress and conception of social change This book advocates a return to liberal models of education arguing that the new approach to geography currently being promoted for schools fundamentally undermines the educational value of the subject and the freedom of young people to shape the world in which they live A vital resource for teachers and student teachers alike Global Perspectives in the Geography Curriculum makes a significant contribution to the growing debate about the future direction of the discipline itself

**Losing Our Language** Sandra Stotsky,2002 This book argues that it is the incorporation of a multicultural agenda into basal readers the primary tool for teaching reading in elementary schools that has stunted American children s ability to read The book shows how basal readers have been systematically dumbed down in an effort to raise minority students self esteem It contends that while elementary readers of the past featured excerpts from classic stories such as Arabian Nights and Robinson Crusoe with a complex vocabulary and sentence structure able to challenge the imagination and build reading skills today s basal readers present students with politically and ethnically correct stories whose language is virtually foreign and unable to engage students According to the book drawing words from Swahili Spanglish and other trendy dialects to teach students with a shrinking English vocabulary is a symptom of this intellectual and cultural disorder The book showcases interviews with teachers gives an in depth analysis of reading texts over the past 30 years and talks about how pressure groups have affected educational publishers It points out that literacy cultural and verbal gives all students but particularly those from poor or minority backgrounds personal independence and achievement and the ability to participate fully in civic life Each of the 11 chapters includes notes
