Davis,Robert E. Gallman,Karin Gleiter,2007-12-01 In Pursuit of Leviathan traces the American whaling industry from its rise in the 1840s to its precipitous fall at the end of the nineteenth century Using detailed and comprehensive data that describe more than four thousand whaling voyages from New Bedford Massachusetts the leading nineteenth century whaling port the authors explore the market for whale products crew quality and labor contracts and whale biology and distribution and assess the productivity of the American fleet They then examine new whaling techniques developed at the end of the nineteenth century such as modified clippers and harpoons and the introduction of darting guns Despite the common belief that the whaling industry declined due to a fall in whale stocks the authors argue that the industry s collapse was related to changes in technology and market conditions Providing a wealth of historical information In Pursuit of Leviathan is a classic industry study that will provide intriguing reading for anyone interested in the history of whaling Miraculous Air C. The Doryman's Reflection Paul Molyneaux,2017-07-25 What happens when the oceans are emptied of all their fish What happens when three hundred years of human knowledge and

expertise disappear before the onslaught of the technology driven world The Doryman's Reflection is simply the most accurate and eloquent account of what transpired in the New England fisheries over the past half century as told by the people who lived it including author Paul Molyneaux Fishermen survive as relics the last hunter gatherers among us Their boats crammed with ropes and nets carry the mystique of a nearly forgotten world ruled by the elements Now an accomplished writer Molyneaux as a young man journeyed to Maine with no experience and a dream of working on a boat This is the story of his apprenticeship with Bernard Raynes one of Maine's last independent commercial fishermen The Doryman's Reflection speaks to those who want to know what really happened and what will happen on our oceans Part coming of age memoir part biography it is a very personal account of what families in this dying but important industry face each day Molyneaux shares his own history as a young man seeking the fisherman's life in Maine and Alaska Originally published in 2005 it has been thoroughly updated to cover the events of the past ten years Told through the life of the colorful and engaging Bernard Raynes The Doryman's Reflection is alive and real and powerful far from a dry pedantic treatise on the economics of commercial fishing [Watching Whales & Dolphins in Southern Africa](#) Noel Ashton,2012-07-11 Southern Africa has some of the best whale and dolphin watching opportunities in the world with over half of the world's species being found in our waters Watching Whales Dolphins in Southern Africa is an essential guide to watching the region's 12 more common species In addition to species accounts and charts that aid identification this guide provides detailed information on cetaceans their evolution senses behaviour classification and anatomy Multiple clear images both photographic and illustrated help identify each species by showing how to read the partial signs that cetaceans usually offer such as a flipper tail or even just their blow The book also discusses the tragic toll that hunting has had on whale populations and the ongoing struggle to protect these majestic mammals This is an invaluable guide for anyone wishing to know more about whales and dolphins of the region **Fathoms** Rebecca Giggs,2021-07-20 When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia she began to wonder how the lives of whales reflect the condition of our oceans [Emotional and Ecological Literacy for a More Sustainable Society](#) Giuliana Panieri,Margherita Paola Poto,Emily Margaret Murray,2024-05-22 This open access book aims to promote ecological and emotional research and education for sustainability by cultivating values and behaviours consistent with how nature makes us feel connected and nurtured Built upon the intersection of ecological literacy and socio emotional learning grounded in sustainability and relational thinking the research developed in the book covers a wide range of themes connected to the Agenda 2030 [Library Journal](#) ,1995 **San Francisco Review of Books** ,1995 **Managing Natural and Cultural Heritage for a Durable Tourism** Anna Trono,Valentina Castronuovo,Petros Kosmas,2024-04-28 This contributed volume offers a wealth of cases that explore the factors and conditions required for heritage tourism to be economically and socially beneficial to local communities without impairing the natural environment cultural heritage preservation or sustainability for future
