Language, Eros, Being Elliot R. Wolfson, 2009-08-25 This long awaited magisterial study an unparalleled blend of philosophy poetry and philology draws on theories of sexuality phenomenology comparative religion philological writings on Kabbalah Russian formalism Wittgenstein Rosenzweig William Blake and the very physics of the time space continuum to establish what will surely be a highwater mark in work on Kabbalah Not only a study of texts Language Eros Being is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson Through a Speculum That Shines is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field Speculum

explored as an alternate way of considering professional knowledge In the present context dominated by technical rationalities and instrumentalist approaches a re examination of the concept of phronesis offers a fundamental re visioning of the educational aims in professional schools and continuing professional education programs This book originated from a conversation amongst an interdisciplinary group of scholars from education health philosophy and sociology who share concerns that something of fundamental importance of moral signi cance is missing from the vision of what it means to be a professional The contributors consider the ways in which phronesis offers a generative possibility for reconsidering the professional knowledge of practitioners The question at the centre of this inquiry is If we take phronesis seriously as an organising framework for professional knowledge what are the implications for professional education and practice A multiplicity of understandings emerge as to what is meant by phronesis and how it might be reinterpreted understood applied and extended in a world radically different to that of the progenitor of the term Aristotle For those concerned with professional life this is a conversation not to be missed *Cultural Studies Vol18 Issue 2* Various Authors,2021-12-24 Issue 2 3 2004 includes articles on rethinking everyday life the myth of everyday life the persistence of everyday everyday tragedy and creation time and space in everyday life everyday utopianism profane illuminations a different life looking at Barthes and Foucault routine and ambiguity shame presences a mundane voice limitations and consumption of digital commodities in everyday life to name a few **Rhetoric and Educational Discourse** Richard Edwards,Katherine Nicoll,Nicky

The Reflexive Initiative Stanley Raffel, Barry Sandywell, 2016-03-31 The Reflexive Initiative is an authoritative intervention in the practice and tradition of reflexive social theory It demonstrates the importance of the reflexive imperative not only in the investigation of everyday life but across a wide range of human

sciences and philosophical perspectives Forty years after the publication of *On the Beginning of Social Inquiry* the chapters in this collection range from re appraisals of earlier essays on topics such as reunions rethinking art and expats to contributions emphasising the opening of radical dialogues with other reflexive traditions and perspectives These include psychoanalysis Lacan Hegel Rene Girard Daseinanalysis dialectical method critical feminism and the dialogical tradition In this dialogical spirit the book contributes to the continuing project of analytic theorizing associated with the work of Alan Blum and Peter McHugh and the recent turn to more existential topics and politically engaged forms of reflexive research It will be of particular use to students working in interpretive traditions of sociology Critical theory Postmodern thought and debates associated with reflexivity and dialectics in other disciplines and research programmes

New Thinking in Complexity for the Social Sciences and Humanities Ton Jörg, 2011-08-09 The underlying idea and motive for the book is that the notion of complexity may humanize the social sciences may conceive the complex human being as more human and turn reality as assumed in our doing social science into a more complex that is a richer reality for all The main focus of this book is on new thinking in complexity with complexity to be taken as derived from the Latin word *complexus* that which is interwoven The trans disciplinary approach advocated here will be trans disciplinary in two ways firstly by going beyond the separate disciplines within the fields of both natural sciences and social sciences and secondly by going beyond the separate cultures of the natural sciences and of the social sciences and humanities

Bakhtin and the Human Sciences Michael Bell, Michael E Gardiner, 1998-08-28 Bakhtin and the Human Sciences demonstrates the abundance of ideas Bakhtin s thought offers to the human sciences and reconsiders him as a social thinker not just a literary theorist The contributors hail from many disciplines and their essays implications extend into other fields in the human sciences The volume emphasizes Bakhtin s work on dialogue carnival ethics and everyday life as well as the relationship between Bakhtin s ideas and those of other important social theorists In a lively introduction Gardiner and Bell discuss Bakhtin s significance as a major intellectual figure and situate his ideas within current trends and developments in social theory

Dante's Paradiso and the Theological Origins of Modern Thought William Franke, 2021-03-24 Self reflection as the hallmark of the modern age originates more profoundly with Dante than with Descartes This book rewrites modern intellectual history taking Dante s lyrical language in *Paradiso* as enacting a Trinitarian self reflexivity that gives a theological spin to the birth of the modern subject already with the Troubadours The ever more intense self reflexivity that has led to our contemporary secular world and its technological apocalypse can lead also to the poetic vision of other worlds such as those experienced by Dante Facing the same nominalist crisis as Duns Scotus his exact contemporary and the precursor of scientific method Dante s thought and work indicate an alternative modernity along the path not taken This other way shows up in Nicholas of Cusa s conjectural science and in Giambattista Vico s new science of imagination as alternatives to the exclusive reign of positive empirical science In continuity with Dante s vision they contribute to a reappropriation of self reflection for the humanities
