Reform And Insurrection In Russian Poland 1856-1865 University Of London Historical Studies:

Reform and Insurrection in Russian Poland, 1856-1865, 1963 **The Bolsheviks and the Russian Empire** Liliana Riga, 2012-11-12 This book offers a new interpretation of the Russian Revolution finding that nearly two thirds of the Bolsheviks were ethnic minorities Historical Studies University of London, 1970 *Political Repression in 19th Century Europe* Robert Justin Goldstein, 2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815-1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries *War and Social Change in Modern Europe* Sandra Halperin, 2004 This book focuses on the interrelationship of social forces industrial expansion and conflict in Europe between 1789 and 1945

When Nationalism Began to Hate Brian Porter, 2000-02-24 In *When Nationalism Began to Hate* Brian Porter offers a challenging new explanation for the emergence of xenophobic authoritarian nationalism in Europe He begins by examining the common assumption that nationalist movements by nature draw lines of inclusion and exclusion around social groups establishing authority and hierarchy among one's own and antagonism towards others Porter argues instead that the penetration of communal hatred and social discipline into the rhetoric of nationalism must be explained not merely assumed Porter focuses on nineteenth century Poland tracing the transformation of revolutionary patriotism into a violent anti-Semitic ideology Instead of deterministically attributing this change to the forces of modernization Porter demonstrates that the language of hatred and discipline was central to the way modernity itself was perceived by fin de siècle intellectuals The book is based on a wide variety of sources including political speeches and posters newspaper articles and editorials underground brochures published and unpublished memoirs personal letters and nineteenth century books on history sociology and politics It embeds nationalism within a much broader framework showing how the concept of the nation played a role in liberal conservative socialist and populist thought *When Nationalism Began to Hate* is not only a detailed history of Polish nationalism but also an ambitious study of how the term nation functioned within the political imagination of modernity It will prove an important text for a wide range of students and researchers of European history and politics **Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical

writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate. Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies.

Conrad and History Richard Niland, 2010-02-25 This book examines the philosophy of history and the subject of the nation in the literature of Joseph Conrad. It explores the importance of nineteenth century Polish Romantic philosophy in Conrad's literary development arguing that the Polish response to Hegelian traditions of historiography in nineteenth century Europe influenced Conrad's interpretation of history. After investigating Conrad's early career in the context of the philosophy of history the book analyses *Nostromo* 1904 *The Secret Agent* 1907 and *Under Western Eyes* 1911 in light of Conrad's writing about Poland and his sustained interest in the subject of national identity. Conrad juxtaposes his belief in an inherited Polish national identity derived from Herder and Rousseau with a sceptical questioning of modern nationalism in European and Latin American contexts. *Nostromo* presents the creation of the modern nation state of Sulaco. *The Secret Agent* explores the subject of foreigners and nationality in England while *Under Western Eyes* constitutes a systematic attempt to undermine Russian national identity. Conrad emerges as an author who examines critically the forces of nationalism and national identity that troubled Europe throughout the nineteenth century and in the period before the First World War. This leads to a consideration of Conrad's work during the Great War. In his fiction and newspaper articles during the war Conrad found a way of dealing with a conflict that made him acutely aware of being sidelined at a turning point in both modern Polish and modern European history. Finally this book re-evaluates Conrad's late novels *The Rover* 1923 and *Suspense* 1925 a long neglected part of his career investigating Conrad's sustained treatment of French history in his last years alongside his life long fascination with the cult of Napoleon Bonaparte.

Russian Imperialism Dietrich Geyer, 1987-01-01 This book offers a fresh and stimulating analysis of the often elusive relationship between domestic and foreign policy in Russia before the First World War. Dietrich Geyer one of Germany's leading historians of Russia discusses a wide variety of economic fiscal institutional and ideological developments within imperial Russia. In so doing he brings into sharp relief the difficulties faced by the ruling elites in maintaining Russia's great power position in Europe the Near East and the Far East. Now available in English for the first time this widely acclaimed book will be welcomed as an indispensable resource by all those who were unable to read the original German edition. By far the most perceptive knowledgeable and intelligent work on the last half century of imperial Russia in print. Theodore H. Von Laue *Russian History*. This important tightly packed book analyzes the basic problems of Russian imperialism thoroughly and with enormous erudition. Scholars concerned with imperialism and Russian domestic and foreign problems will welcome this thought provoking work. David MacKenzie *American Historical Review*. A convincing and important analysis of the mutual

dependence of autocratic domestic and foreign politics This book ought to be the occasion for a renewed and wide discussion of Russian imperialism and should give rise to further studies of the question Alan Kimball Slavic Review This is a remarkably good book Good in many respects quality of research and writing breadth of view command of the facts balance and penetration in judgment familiarity with relevant theory The book represents a revived and deepened historicism Paul W Schroeder Journal of Modern History

Vilnius between Nations, 1795-2000 Theodore R. Weeks, 2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city has played a significant role in the history and development of at least three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population Vilnius between Nations 1795 2000 is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city's identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

Hasidism on the Margin Shaul Magid, 2004-01-01 Hasidism

on the Margin explores one of the most provocative and radical traditions of Hasidic thought the school of Izbica and Radzin that Rabbi Gershon Henokh originated in nineteenth century Poland Shaul Magid traces the intellectual history of this strand of Judaism from medieval Jewish philosophy through centuries of Kabbalistic texts to the nineteenth century and into the present He contextualizes the Hasidism of Izbica Radzin in the larger philosophy and history of religions and provides a model for inquiry into other forms of Hasidism
