Construction Of Democracy, The: China's Theory, Strategy And Agenda Shangli Lin, 2021-02-05 The book

expounds on the role played by democracy in China's revolution and modernization led by the Communist Party of China (CPC) and how the CPC in both its party building and state building has constantly sought to leverage democracy's positive functions while avoiding its shortcomings. Special attention is paid to reconstructing and explaining the historical contexts from which the Party's theoretical innovations have emerged, thus offering readers insights into the inner political logic that has shaped China's development. The author, a member of the Party's senior policy panel, offers a perceptive analysis of the modernization of the country and its governing capacity and provides a clear assessment of how democracy in China has developed with the times. Always bearing the big picture in mind, the author has not shied away from some of the more controversial parts of China's recent history, and his deep understanding of relevant Party documents and historical facts give strong support to his analyses. He concludes that the Party is central to leading the nation to explore its path of socialism with Chinese characteristics and that the country has always emerged stronger after setbacks.

Rising China in the Changing World Economy Liming Wang, 2012-03-12 China's rapid and sustained growth over last thirty years has propelled it to become the world's second largest economy today and potentially the largest in the foreseeable future. This book explores a wide range of issues connected with the impact of China on the global economy and the prevailing international system. Subjects covered include China's multinationals, international acquisitions, the exchange rate, research and development, and technology transfer. China's emerging major business groupings and small and medium-sized enterprises.

China's Leaders David Shambaugh, 2021-06-25 Since the founding of the People's Republic of China over 70 years ago, five paramount leaders have shaped the fates and fortunes of the nation and the ruling Chinese Communist Party: Mao Zedong, Deng Xiaoping, Jiang Zemin, Hu Jintao, and Xi Jinping. Under their leaderships, China has undergone an extraordinary transformation from an undeveloped and insular country to a comprehensive world power. In this definitive study, renowned Sinologist David Shambaugh offers a refreshing account of China's dramatic post-revolutionary history through the prism of those who ruled it. Exploring the personal formative socialization, psychology, and professional experiences of each leader, Shambaugh shows how their differing leadership styles and tactics of rule shaped China domestically and internationally. Mao was a populist tyrant, Deng a pragmatic Leninist, Jiang a bureaucratic politician, Hu a technocratic apparatchik, and Xi a modern emperor. Covering the full scope of these leaders' personalities and power, this is an illuminating guide to China's modern history and understanding how China has become the superpower of today. Also available as an audiobook.
