## **Refugee Protection A European Challenge:**

**Refugee Protection** Vigdis Vevstad, 1998-01-01 3 1 Who is a refugee      Europe and Refugees: A Challenge? / L'Europe et les réfugiés: un défi? Jean-Yves Carlier, Dirk Vanheule, 2023-08-21 This volume emerged from an international colloquium held in April 1995 in Antwerp Belgium on the subject of Europe and Refugees It analyses the various challenges posed by the plight of refugees today paying particular attention to the situation in Europe and to the new European treaties such as the Dublin Convention the Schengen Agreement and the Resolutions of the European Union Europe and Refugees A Challenge offers the reader both an international and a multidisciplinary vision Its contributors come from both within and outside Europe and are drawn from a large range of disciplines including philosophy political science and law This volume contains contributions in English and French Ce livre comprend les Actes d'un colloque international qui s'est tenu en avril 1995 Anvers en Belgique sur le thème L'Europe et les réfugiés un défi Le livre soulève différentes questions qui sont autant de défis la situation contemporaine des réfugiés avec une attention particulière pour cette situation en Europe notamment dans de nouveaux textes comme la Convention de Dublin les Accords de Schengen et les Résolutions au sein de l'Union européenne Le livre offre une vision multiple en associant des auteurs de différents endroits en Europe et en Amérique du Nord et de différentes disciplines philosophie sciences politiques et droit Il y a des contributions en anglais et en français      *Refugee Protection and Solidarity* Eleonora Milazzo, 2023 Refugee Protection and Solidarity looks to define the duties that EU member states have towards each other in the field of refugee protection employing analytical tools of normative political theory to bring moral clarity to a highly divisive debate on both principles and political feasibility There is a discrepancy between the commitment to solidarity enshrined in EU law and the reality of asylum provision in the EU The events related to the EU migration crisis of 2015 16 have exposed this discrepancy and questioned the nascent notion of EU solidarity at its core The book argues that the debate on distributive justice in the EU fails to consider refugee protection as a field in which distributive duties apply in ways similar to other domains such as social policy as well as exploring what justifications states invoke to justify non compliance with their duties Eleonora Milazzo contends that as currently framed the debate on the ethics of refugee protection fails to account for the nature and effect of associational ties among states in relation to asylum provision which is important for the assessment of responsibility shirking      **Evidence in European Asylum Procedures** Ida Staffans, 2012-04-19 This book focuses on three European asylum procedures and the evidentiary assessment carried out in these The interrelationship between these procedures and legal systems influencing them is explored and questions in relation to the harmonizing strivings of EU are posed      **International Refugee Law** Heine Lambert, 2017-07-05 The essays selected and reproduced in this volume explore how international refugee law is dynamic and constantly evolving From an instrument designed to protect mostly those civilians fleeing the worse excesses of World War II the 1951 Refugee Convention has developed into a set of principles customary rules and values that are now firmly embedded in the human

rights framework and are applicable to a far broader range of refugees In addition international refugee law has been affected by international humanitarian law and international criminal law and vice versa Thus there is a reinforcing dynamic in the development of these complementary areas of law At the same time in recent decades states have shown a renewed interest in managing migration thereby raising issues of how to reconcile such interests with refugee protection principles In addition the emergence of concepts of participation and responsibility to protect promise to have an impact on international refugee law

**The Evolution of Humanitarian Protection in European Law and Practice** Liv Feijen,2021-04

Humanitarian protection has evolved from an act of charity into a legal obligation not to remove certain categories of non nationals

*Immigration and Asylum Law and Policy of the European Union* Kay Hailbronner,2024-01-22 The harmonization of the different European legal systems has reached the field of asylum and immigration policy The Maastricht Treaty has established the legal basis for a common migration policy Numerous resolutions recommendations joint positions and actions were adopted by the EU Council based on the third pillar in the Maastricht Treaty Within the first pillar the European Community has enacted regulations on visa policy based on Art 100c EC Treaty Additionally several agreements with third countries on immigration issues were set into force Immigration and Asylum Law and Policy of the European Union comprehensively describes the present state of the harmonization process concerning migration policy in the European Union Particular emphasis is laid on the legal status of third country nationals with regard to entry and residence Furthermore the gaps within EU regulations are evaluated in an attempt to search for a homogenous European migration policy

**Eu Immigration And Asylum Law** Steven Peers,Nicholas Rogers,2006 Since entry into force of the Treaty of Amsterdam on 1 May 1999 the EU has considered and in many cases adopted many proposals for legislation or measures implementing legislation in the area of immigration and asylum law These measures run the gamut from highly technical operational matters to broad measures covering basic aspects of immigration and asylum law Between them the proposed or adopted measures cover virtually every possible issue in relation to immigration or asylum This book contains the text of and commentary upon a large number of these measures proposed or adopted up until 1 January 2006 including all of the most important ones It also includes the text of the key measures concerning asylum legal migration and irregular migration A full list of the measures with references to their legislative history is provided The authors of each commentary are experts in the field of EU immigration and asylum law and the areas covered include visa and border controls asylum legal migration and integration and irregular migration

**The Internal Protection Alternative in Refugee Law** Jessica Schultz,2018-12-10 Under what circumstances can a state refuse refugee status to a person whose risk

of persecution exists in only part of her country of origin This book is the first monograph to examine the treaty basis and criteria for the internal protection alternative IPA an exception to refugee status increasingly invoked by state parties to the 1951 Refugee Convention and its 1967 Protocol Through a critical analysis of the relationship between refugee law and related fields Schultz finds that the legal scope for IPA practice is narrower than is commonly claimed Since persons subject to an IPA analysis have a well founded fear of persecution within their countries of origin any limit on their right to refugee status must involve a careful balancing of the impact of continued displacement against the state s interest in preserving its restricted protection resources She argues that the doctrine of implied limits in human rights law can provide analytic structure to the IPA concept and reduce the risk of overly broad application

*International Migration and Refugee Law. Does Germany's Migration Policy Toward Syrian Refugees Comply?* Jasmin Lilian Diab, 2017-07 Germany will spend around 6.6 billion to cope with an estimated 800 000 refugees expected to have entered the country in the year 2016 this reality indeed extending further into 2017 Despite this overwhelming number of people entering the country Chancellor Angela Merkel stated that there is no legal limit to the number of asylum seekers Germany will take in in the coming years The announcement by Merkel's coalition government followed Germany and Austria opening their borders to the large numbers of refugees making their way north and west from the Middle East Africa and elsewhere In particular this statement came after the Syrian refugee crisis created the biggest refugee crisis the world has seen since the Second World War Germany is seen as the immigration hub of Europe It also happens to be the second most popular destination for immigrants after the United States of America Germany is also the country in Europe with the highest numbers of foreign nationals to date Germany established a new immigration law in 2005 which was born out of a realization that it was coming to terms with a demographic crisis stemming from an ageing population and further complimented by a sharp decline of national birth rates In foresight and within this unfortunate context migration was seen by much of the German political class as an economic necessity and the answer to the German

economic and demographic time bomb Between the years 2009 and 2014 annual net migration in Germany rose from 100 000 to 580 000 individuals Moreover the inflow of foreign nationals increased from 266 000 to 790 000 individuals As of January 2015 approximately 10% of residents in Germany were foreign nationals with around 12% born outside the country Naturally these figures have all risen significantly following Merkel s decision to allow what has reached one million refugees and migrants into Germany across 2016 and moving into 2017 Moving from this reality the research will focus on the importance of the compliance of Germany s migration policy with International Refugee and Migration Law as it is crucial for the country s survivability and move forward throughout this phase of its history The importance of the research lies in whether or not Germany s migration policy towards the Syrian Refugees in particular complies with its duties toward international law embodied in the treaties and conventions it has committed to
