**Regaining Fiscal Sustainability and Enhancing Effectiveness in Croatia** ,2002-01-01 During the 1990 s while undergoing the process of nation building Croatia made significant strides in private sector development and privatization However confronted by the impact of war and the need for reconstruction a fairly sizeable deficit was amassed The new government installed in 2000 was confronted with the need to establish a more sustainable fiscal policy while confronted by high unemployment and social spending This report contains a thorough analysis of the areas critical to an improved budgetary management process including expenditure reorientation and restructuring It provides detailed recommendations to facilitate the efforts of the Croatian Government in reducing public spending while improving its effectiveness **Croatia**

**- Regaining Fiscal Sustainability and Enhancing Effectiveness** ,2001 **Welfare State Transformation in the Yugoslav Successor States** Marija Stambolieva,2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions Governance for the 21st Century Andrés González,2007 In recent years corruption has become a major threat to political systems around the world due to its ability to damage and destabilize national as well as international democratic institutions Since the end of the Cold War corruption has not entirely changed in its pathology However this phenomenon has become a serious political and economic danger for states and regions especially in Latin America This book analyzes recent concerns raised by the problem of this region focusing on three countries Argentina Chile and Ecuador It gives an overview of definitions forms and typologies of corruption as well as its causes and effects Moreover the book introduces and discusses different approaches

offered as solutions to corruption The case studies allow a possible explanation of the degree of propensity that these countries show towards corruption A Guide to the World Bank ,2003 The World Bank Group works in more than 100 developing economies and is one of the world s largest sources of development assistance In 2002 the institution provided US 19.5 billion in loans to its client countries This guide reviews the organisation s history objectives and operations and looks at the five institutions that make up the World Bank Group the International Bank for Reconstruction and Development IBRD the International Development Association IDA the International Finance Corporation IFC the Multilateral Investment Guarantee Agency MIGA and the International Centre for Settlement of Investment Disputes ICSID Eu's Eastward Enlargement, The: Central And Eastern Europe's Strategies For Development Yoji Koyama,2014-12-09 Owing to the global financial crisis of 2007-2009 and subsequently the Eurozone crisis the accession of Central and Eastern European countries to the European Union and the Eurozone has not been an easy one The EU s Eastward Enlargement analyses challenges that these countries currently face in their pursuit of economic self reliance Covering a period from the second half of the 1980s to the present Yoji Koyama provides unique and objective analyses of the European Union and the Euro system from a non-European s perspective He offers a detailed reexamination of the fundamental problems of the European Union which in turn have affected the autonomous development of countries such as Poland the former Yugoslavia Albania and the Baltic States This book is a useful addition to the scholarship available on the Euro system and Central and Eastern European countries It will help readers gain a more holistic understanding of the ongoing Eurozone crisis and the future of the Eurozone project

*Prevention and Crisis Management* Steven Rosefielde,2013 This book highlights the future threat to Asia from a broader perspective that takes account of the Japanese and Asian financial crises during the 1990s as well as the global crisis of 2008 It reveals that Asian crises take many diverse forms and that the solutions devised to date have only been locally and not universally effective Policymakers are accordingly advised to always plan for the element of surprise Croatia - Regaining Fiscal Sustainability and Enhancing Effectiveness Weltbank,2013 The report presents the macroeconomic setting and fiscal developments in the 1990s in Croatia a country facing an unparalleled opportunity towards sustainable growth and integration into the European Union Nonetheless the country needs to sustain macroeconomic stabilization and improve the investment climate To this effect public sector reform needs to be oriented to diminish the size of the state and reduce the fiscal deficit to sustain macroeconomic stability in the medium term Yet the scope for reducing the deficit through revenue increases is limited even though a decrease in the tax burden would be highly desirable This means that most of the adjustment will need to be made in public expenditures particularly by identifying and implementing policies that will reduce the level of expenditures while improving their effectiveness thus budgetary management improvement will be critical to this effort The report analysis indicates that the current budget in Croatia is not a comprehensive measure of all fiscal activity namely that five extra budgetary funds are not included in the budget that off budget revenues outside of the extra budgetary

funds still exist that the cash budgeting system leads to the accumulation of arrears that do not appear in budget presentations and that laws outside of the budget law lead to mandatory spending that falls outside of the budget process
