Sbs In World War Two:

Special Operations in World War II Andrew L. Hargreaves, 2013-10-28 British and American commanders first used modern special forces in support of conventional military operations during World War II. Since then, although special ops have featured prominently in popular culture and media coverage of wars, the academic study of irregular warfare has remained as elusive as the practitioners of special operations themselves. This book is the first comprehensive study of the development, application and value of Anglo American commando and special forces units during the Second World War. Special forces are intensively trained, specially selected military units performing unconventional and often high risk missions. In this book, Andrew L. Hargreaves not only describes tactics and operations but also outlines the distinctions between commandos and special forces, traces their evolution during the war, explains how the Anglo American alliance functioned in the creation and use of these units, looks at their command and control arrangements, evaluates their impact and assesses their cost effectiveness. The first real impetus for the creation of British specialist formations came in the desperate summer of 1940 when, having been pushed out of Europe following defeat in France and the Low Countries, Britain began to turn to irregular forces in an effort to wrest back the strategic initiative from the enemy. The development of special forces by the United States was also a direct consequence of defeat. After Pearl Harbor, Hargreaves shows the Americans found themselves in much the same position as Britain had been in 1940: shocked, outnumbered and conventionally defeated, they were unable to come to grips with the enemy on a large scale. By the end of the war, a variety of these units had overcome a multitude of evolutionary hurdles and made valuable contributions to practically every theater of operation. In describing how Britain and the United States worked independently and cooperatively to invent and put into practice a fundamentally new way of waging war, this book demonstrates the two nations' flexibility, adaptability and ability to innovate during World War II.

The SBS in World War II Gavin Mortimer, 2013-09-20 The Special Boat Squadron was Britain's most exclusive Special Forces unit during World War II. Highly trained, totally secretive and utterly ruthless, the SBS was established as an entity in its own right in early 1943, having previously operated under the auspices of the SAS during the war in North Africa. Unlike its sister unit, which numbered more than 1,000 men, the SBS never comprised more than 100. Led by men such as the famed Victoria Cross recipient Anders Lassen, the SBS went from island to island in the Mediterranean, landing in the dead of night in small fishing boats and launching savage hit and run raids on the Germans. By the end of the war, they had served in Italy, the Balkans and mainland Greece, and following the cessation of hostilities, their deeds were airbrushed out of history by an establishment that had never warmed to their piratical exploits. Through unrivalled access to the SBS archives and interviews with the surviving members of the unit, Gavin Mortimer has pieced together the dramatic exploits of this elite fighting force, fully illustrated with images of their daring actions, finally granting the unit the recognition they so richly deserved. *World War II in Europe* David T.
