

FRANK A. DE LA ROSA

BEYOND FORGETTING

Childhood memories of the author during the WWII in the Philippines

Having lived during and after the Second World War, Frank experienced the terrors of the war and the devastations that shortly followed. It was a challenging period to the world, more so to the eye of a four-year-old child. In this book, discover how the biggest war of history affected the life of an innocent child and how the challenges made him see and appreciate the simplest things in life. This book contains the unrecorded history of WWII as it happened to the typical families of a small town on a remote island in the Philippines. From surviving the war, overcoming the poverty of the time, and completing his education with flying colors, join Frank in his unusual yet exciting journey during and after WWII. Through his experience, see how positivity, camaraderie, and resourcefulness can transform even the most challenging situations into victory and success!

Beyond Measure Isaac Slater, 2020-02-13 Bernard continually returns to the classical idea that the quality of desire shapes theological imagination By attending to the multiple ways he develops and applies this insight *Beyond Measure* uncovers a new depth of organic unity to the literary philosophical and theological strands densely interwoven through his writings Bernard's apparent iconoclasm with respect to art affectivity and the humanity of Jesus is revealed as an alternative mystical aesthetic congruent with his program for monastic reform The central movement of Cistercian spirituality from the carnal to the spiritual is shown not to elide but to recapitulate the carnal in higher spiritual expression Further this approach provides fresh understanding of the ways in which Bernard is at once last of the fathers and first of the moderns In particular a careful reading of works by Julia Kristeva and Jean Luc Marion on Bernard reveals both the enduring brightness and vitality of his writing and the relevance of his work for people today

Donaldson, 2020-01-31 In a bold departure from previous scholarship Le'Trice D Donaldson locates the often overlooked era between the Civil War and the end of World War I as the beginning of black soldiers involvement in the long struggle for civil rights Donaldson traces the evolution of these soldiers as they used their military service to challenge white notions of an African American second class citizenry and forged a new identity as freedom fighters willing to demand the rights of full citizenship and manhood Through extensive research Donaldson not only illuminates this evolution but also interrogates the association between masculinity and citizenship and the ways in which performing manhood through military service influenced how these men struggled for racial uplift Following the Buffalo

soldier units and two regular army infantry units from the frontier and the Mexican border to Mexico Cuba and the Philippines Donaldson investigates how these locations and the wars therein provide windows into how the soldiers struggles influenced black life and status within the United States Continuing to probe the idea of what it meant to be a military race man a man concerned with the uplift of the black race who followed the philosophy of progress Donaldson contrasts the histories of officers Henry Flipper and Charles Young two soldiers who saw their roles and responsibilities as black military officers very differently Duty beyond the Battlefield demonstrates that from the 1870s to 1920s military race men laid the foundation for the New Negro movement and the rise of Black Nationalism that influenced the future leaders of the twentieth century Civil Rights movement
