Scandinavia Profiled A Managerial Approach:

Nature, Temporality and Environmental Management Lesley Head, Katarina Saltzman, Gunhild Setten, Marie Stenseke, 2016-08-05 How are different concepts of nature and time embedded into human practices of landscape and environmental management And how can temporalities that entwine past present and future help us deal with challenges on the ground In a time of uncertainty and climate change how much can we hold onto ideals of nature rooted in a pristine and stable past The Scandinavian and Australian perspectives in this book throw fresh light on these questions and explore new possibilities and challenges in uncertain and changing landscapes of the future This book presents examples from farmers gardens and Indigenous communities among others and shows that many people and communities are already actively engaging with environmental change and uncertainty The book is structured around four themes environmental futures mobile natures indigenous and colonial legacies heritage and management Part I includes important contributions towards contemporary environmental management debates yet the chapters in this section also show how the legacy of older landscapes forms part of the active production of future ones Part II examines the challenges of living with mobile natures as it is acknowledged that environments natures and people do not stand still An important dimension of the heritage and contemporary politics of Australia Sweden and Norway is the presence of indigenous peoples As is clear in part III the legacies of the colonial past both haunt and energise contemporary land management decisions Finally part IV demonstrates how the history and heritage of landscapes including human activities in those landscapes are entwined with contemporary environmental management The rich empirical content of the chapters exposes the diversity of meanings practices and ways of being in nature that can be derived from cultural environmental research in different disciplines The everyday engagements between people nature and temporalities provide important creative resources with which to meet future challenges

The First Scandinavian Conference on Information Systems SCIS 2010 took place during August 20-22, 2010 in Rebild, Denmark. The conference was held in conjunction with the traditional IRIS seminar for information systems research in Scandinavia. The IRIS seminar has a long standing recognition for furthering information systems research. The objective of SCIS 2010 was to extend and formalize a part of the seminar to a full conference. The purpose of the conference was to exchange and publish high quality research with a particular view on the Scandinavian research community. The theme of the conference was Engaged Scandinavian Information Systems Research. Scandinavian information systems research has for several decades been concerned with its relevance for practitioners of the field for users for industry and for society at large. This concern for the usefulness outside the realms of research has shaped the Scandinavian researchers' awareness, attention, research conduct, and most importantly, a focus on who we interact with, on which issues, why we do this, and for whom we do it. *Sustainability and Management* Kıymet Çalıyurt, Ülkü Yüksel, 2017-07-14. In the wake of the 1987 Brundtland Report, sustainable development has become key to the management systems within businesses and a means by which companies can increase their long term value. Being a sustainable company increasingly means staying alive in business and has become a necessity for all kinds of enterprises, from the micro sized to global corporations. In more recent years, many companies and indeed governments have looked at sustainability as a means to combat the multiple challenges of environmental accidents, global warming, resource depletion, energy poverty, and pollution. However, being sustainable or maintaining sustainability is not an easy task for a company's management function. It needs continuous support and engagement from the board, the executive management staff, and other stakeholders alike. Additionally, it brings extra costs to the company in terms of hiring trained staff, organising continuous training in the company, publishing sustainability reports, and subscribing to a rating system. Sustainability must be nourished by a company's board as well as by all of its departments such as accounting, marketing, and human resources. By the same token, it is not enough for a company simply to declare itself a sustainable business or rely on past measures and reputation; sustainability is an ongoing activity and one which has to be proved by periodically disclosing sustainability reports according to international rating systems. In *Sustainability and Management: An International Perspective*, Kıymet Çalıyurt and Ülkü Yüksel bring together international authors from a variety of specialisations to discuss the development, aspects, problems, roadmap, trends, and disclosure systems for sustainability in management. The result is a lively, insightful exposition of the field. **The Wiley Guide to Project Organization and Project Management Competencies** Peter W. G. Morris, Jeffrey K. Scandinavia in a New Europe Thomas P. Boje, Sven E. O. Hort, 1993 Can we predict the future of Scandinavian welfare states Are the models of equality solidarity and social justice going to survive in an enlarged and united Europe How will the processes of globalization and regionalization affect the uniqueness of the societies of this region What role will Scandinavia play in terms of politics culture and the economy in a new Europe These and other questions of urgent concern are examined in *Scandinavia in a New Europe* Written by fifteen leading Scandinavian sociologists and social scientists this volume gives a vivid portrait of a world apart in the process of integration and transformation

The Recognition and Management of Early Psychosis Patrick D. McGorry, Henry J.

Jackson, 1999-07-28 The treatment of early psychosis has been bedevilled by an entrenched pessimism stemming from the asylum era and the Kraepelinian model of schizophrenia More recently however there has been a surge of interest in preventively oriented treatment of patients showing the first signs of psychotic illness with the realization that these illnesses are frequently highly responsive to early treatment This is the first text to focus on the potential of early detection of psychosis and the practicalities of treatment Based on the pioneering experience and research of a now well established prevention and intervention centre and with contributions from international authorities the book outlines a framework for intervention reviews the evidence available to guide clinical practice and describes models of treatment Incorporating many personal narratives and case histories it is strong on theory sensitive on practical issues and will challenge inform and guide clinicians

Bullying and Harassment in the Workplace Stale Einarsen, Helge Hoel, Dieter Zapf, Cary Cooper, 2010-09-22 Previously titled *Bullying and Emotional Abuse in the Workplace* International Perspectives in Research and Practice the first

edition of this bestselling resource quickly became a benchmark and highly cited source of knowledge for this burgeoning field. Renamed to more accurately reflect the maturing of the discipline *Bullying and Harassment in The Oxford Handbook of Popular Music in the Nordic Countries* Fabian Holt, Antti-Ville Kärjä, 2017-07-03. Popular music has come to play a significant role in the political and cultural history of the Nordic countries. Research on the region's culture has largely followed national narratives created by political and economic institutions even as cultural life in the region, which spans a large area of northern Europe and the North Atlantic, displays more complex geographies and evolving global dynamics. As the first of its kind, *The Oxford Handbook of Popular Music in the Nordic Countries* offers a series of exemplary studies of music in these transnational dynamics in the specific context of the region's cultures and natural environments, written by the foremost experts in the field. Chapters highlight and challenge music's place in exotic images of the North and in transnational environmentalism, tourism, racism, and media industries. The Handbook illustrates how transnational dynamics evolve and shape musical life and the institutional spheres of policy, education, and research.

Quality management in food chains Ludwig Theuvsen, Achim Spiller, Martina Peupert, Gabriele Jahn, 2023-08-28. This publication comprises material on recent studies on quality management in agri-food chains. Due to several food crises (e.g. BSE, Foot and Mouth disease) and growing demands for food quality and safety, quality management systems and quality assurance schemes have been widely adopted in different countries in recent years. Scientific knowledge about the features, the acceptance, and the effectiveness and efficiency of these newly introduced quality management initiatives has remained scarce until now. The material by experts in the field focuses on the evaluation of quality management systems and quality assurance schemes. The main issues are the costs and benefits of quality management given the influence of the public sector and consumers' expectations about food quality and safety. Not only are benchmarking and harmonisation methods examined with regard to their impact on the effectiveness of quality assurance schemes, but also the role of trust, cooperation, and integration for efficient quality management is discussed. Different economic theories such as microeconomics, organization, and marketing theory, as well as advanced statistical methods, are applied. Concepts are discussed from the various points of view of industrialised, export-oriented, and developing countries throughout the book. The information in this book gives a comprehensive review of quality management concepts in food chains and highlights future research directions from a global perspective. This book is of interest to all those who concern themselves with the topic, be it in academia or in the professional sector. *Benn's Media*, 2006.
