colonial expansion of the British Empire in the last three centuries resulted in the contact with even more speech communities. Through these language contacts, English changed a lot; it showed the tendency to incorporate foreign influences, especially lexical ones, more likely in the first place. Its grammar changed from being an analytic one towards being synthetic, and in terms of the lexicon, it changed from being a Germanic to a partly Romanic-influenced language. In this essay, I want to examine the influence of the Scandinavian language on English and to what extent it was responsible for the general changes mentioned above. 45 per cent of the commoner words and 25 per cent of the general lexis<sup>1</sup> in the present-day English lexicon are a result of the language contact between Old English and Old Norse during the period of Scandinavian invasions and settlement in the eighth and ninth century, but the lexical influences are only one result of the language contact, and I will try to show the other effects the Scandinavian influence had on English as well.

**Abbreviations** The Abbreviations I will use in this paper are EME for Early Middle English, ModE for Modern English, ON for Old Norse, OE for Old English, and PDE for Present Day English.

***Biographical Dictionary of Modern American Educators*** Shirley Ohles, Frederik Ohles, John Ramsay, 1997-10-28. Widely praised, Greenwood's *Biographical Dictionary of American Educators* (Greenwood, 1978) quickly became a standard reference work for students and scholars of American education. This new volume includes biographical sketches of more than 400 notable researchers, leaders, reformers, critics, and practitioners from all major fields of education and extends the coverage of its predecessor to the mid 20th century. Its topical range encompasses such diverse areas as psychology, music, health, measurement and evaluation, science, special education, history, and administration. It treats education at all levels, including early childhood, elementary and secondary, higher, and adult. Most of the educators profiled were active in the 20th century, but several dozen have been included from the 19th century. A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past. Each biographical sketch includes information on family background, a description of the educator's accomplishments, and a digest of the person's education and career, professional and civic service, major publications, and principal honors. Each profile ends with a list of references, and the volume closes with appendices listing birth places, states of major service, fields of work, a chronological listing of educators, and a list of important dates in American education. A comprehensive index concludes the volume. Educators are included from all fifty states and were selected from numerous suggested candidates for inclusion. Most of the educators profiled were active in the 20th century, but several dozen have been included from the 19th century. A special effort has been made to include women and educators of color whose contributions have often been overlooked in the past.
