 Olsson,2017-05-09 *Listening for the Secret* is a critical assessment of the Grateful Dead and the distinct culture that grew out of the group s music politics and performance With roots in popular music traditions improvisation and the avant garde the Grateful Dead provides a unique lens through which we can better understand the meaning and creation of the counterculture community Marshaling the critical and aesthetic theories of Adorno Benjamin Foucault and others Ulf Olsson places the music group within discourses of the political specifically the band s capacity to create a unique social environment Analyzing the Grateful Dead s music as well as the forms of subjectivity and practices that the band generated Olsson examines the wider significance and impact of its politics of improvisation Ultimately *Listening for the Secret* is about how the Grateful Dead Phenomenon was possible in the first place what its social and aesthetic conditions of possibility were and its results This is the first book in a new series *Studies in the Grateful Dead* *American Secrets* José  
 Liste-Noya,Eduardo Barros-Grela,2011-09-16 Predicated upon the principles of political freedom cultural openness religious tolerance individual self reliance and ethnic diversity the United States of America has been tempted recurrently by the lures of the secret *American Secrets* explores this political historical and cultural phenomenon from many often surprisingly overlapping angles in these analyses of the literary and cultural uses and abuses of secrecy within a democratic culture Through analyses of diverse literary works and cultural manifestations from Mark Twain s anti imperialist prophecies to 9 11 conspiracy theories from the traumas of the Vietnam war to the homophobia of the American military establishment from the unresolved dilemmas of nuclear politics to the secret ecologies shunted aside by the exploitation of the environment from the questionings of national identity on the ethnic and trans sexual margins to the confessional modes of poetry and the poetics of the unspeakable and unrepresentable these essays reveal the politics within the poetics and indissociably the poetics fueling the politics of secrecy in its ambivalent deployment Secrecy often seems to be a question without an answer or an answer that either seems to beg the question or to be a question itself These essays address this paradox with their own questioning explorations In answering such questions the volume as a whole provides an illuminating overview of the pervasiveness of the secret and its modalities in American culture while also dealing specifically with the poetics of the secret in its various historically recurrent literary manifestations **Chinese Cinderella and the Secret Dragon Society** Adeline

J. Thorold,Arthur Hornblow,Arthur Hornblow (Jr.),Perriton Maxwell,Stewart Beach,1912 **Nazi UFOs** S.D. Tucker,2022-10-24 Nazi UFOs tells the strange tale of how following the first alleged flying saucer sightings made in the USA in 1947 a series of fantasists and neo fascists came forward to create a media myth that the Nazis may have invented these incredible craft as a means for winning the Second World War a plan which was tantalisingly close to completion before the Allies conquered Berlin in 1945 Today the fantasy of Nazi UFOs has grown into an entire mythology in books on TV and online Did Germany back engineer anti gravity craft and even a full blown time machine by stripping technology from a crashed alien saucer Did the SS secretly invent Green technology for use in their star ship engines and was this planet saving discovery later suppressed at the behest of a sinister Big Oil conspiracy Did Himmler try to develop lightning weapons for use in aerial combat By contrasting the fake military industrial pseudo histories of Nazi UFO theorists with details of real life Nazi aerospace achievements the author demonstrates both how this modern day mythology came about and how it cannot possibly be more than fractionally true For the first time this fake alternative military history is laid out in full This book features an appealing cast of con men and spies complete madmen real life Nazis and completely made up ones operating right across the globe from South America to wartime Europe and Japan A good example may be the mad professor Viktor Schauberger who actually genuinely did manage to gain a personal audience with Adolf Hitler in order to try and convince him that he had discovered and then exploited some amazing new source of natural free energy which could make objects such as saucers in the opinion of some float Hitler dismissed his plan but it does nonetheless show how close some bizarre schemes came to being implemented in Nazi Germany The Allotment Pocket Bible Emma Cooper,2011-06-16 Fancy having a go at growing your own produce How do you improve your chances of getting an allotment How do you plan what to
