Scattered Minds A New Look At The Origin:

Hyperactive Matthew Smith, 2013-02-15 Each year doctors diagnose an average of nine percent of children between the ages of five and seventeen with attention deficit hyperactivity disorder or ADHD One of the most common childhood disorders it is also one of the most controversial since first identified in the late 1950s everyone from medical professionals to politicians have debated its causes its treatment and its implications for children Today physicians believe it is an inherited neurological disorder best treated with stimulants *Hyperactive* provides the first history of ADHD addressing why children were first diagnosed with the disorder why biological explanations became predominant how powerful drugs became the preferred treatment and why alternative explanations have failed to achieve any legitimacy Contending that hyperactive children are also a product of their social cultural and educational environment Matthew Smith demonstrates how knowledge about the history of ADHD can lead to better choices about its diagnosis and treatment A revealing and accessible study of this controversial subject *Hyperactive* is an essential book for psychologists teachers policymakers and parents *First in the Family* Jessica Hoppe, 2024-09-10 An unflinching and intimate memoir of recovery by Jessica Hoppe Latinx writer advocate and creator of NuevaYorka A powerful thunderclap of a memoir Lilliam Rivera author of *Dealing in Dreams* A MOST ANTICIPATED BOOK OF 2024 Today com LupitaReads Electric Literature Esquire Publishers Weekly In this deeply moving and lyrical memoir Hoppe shares an intimate courageous account of what it means to truly interrupt cycles of harm For readers of *The Recovering* by Leslie Jamison *Somebody's Daughter* by Ashley C Ford and *Heavy* by Kiese Laymon During the first year of quarantine drug overdoses spiked the highest ever recorded And Hoppe's cousin was one of them I never learned the true history of substance use disorder in my family Hoppe writes People just disappeared At the time of her cousin's death she'd been in recovery for nearly four years but she hadn't told anyone In *First in the Family* Hoppe shares her journey the first in her family to do so and takes the reader on a remarkable investigation of her family's history the American Dream and the erasure of BIPOC from recovery institutions and narratives leaving the reader with an urgent message of hope *Faces of Dual Diagnosis* Robert B. Pereira, 2011-10 *Faces of Dual Diagnosis* A Canadian Perspective Studies reveal that about 1 in every 350 people perhaps 90 000 Canadians are affected by both mental health problems and addictions a condition referred to as dual diagnosis or DD Although the impacts on society are considerable on our health system's resources on our legal and social welfare programs on employers friends neighbours and family and on the individual him or herself remarkably little has been written in the popular media about this widespread problem There is also inadequate awareness and training within the health legal and social welfare systems contends physician Robert B Pereira who specializes in treatment of DD clients In *Faces of Dual Diagnosis* A Canadian Perspective Pereira explains the various types of mental illnesses and addictions which typically are found in DD He discusses treatment regimes and offers case studies based on real patient profiles to demonstrate his contention that the most successful approach includes a holistic

examination and treatment of the client's mental, physical, and spiritual health. Pereira discusses his own life path and then presents a case for the creation of a Canadian Center for Policy Research on Dual Diagnosis. Dozens of DD-related resources are listed in the appendix. Dr. Pereira practices medicine in Surrey, BC. In the heat of the midday sun, I rest by the ocean under the shade of a large tree. At midnight, where there is darkness all around, but the light shines just as brightly, I awaken. A creature of darkness, I have been. This, I have not understood, but now accept. Light, many things it is. An end to the darkness, it cannot bring. Of darkness is borne the light. Robert B. Pereira *Contours of Creation* Aran J. E. Persaud, 2022-04-18

If we pick up the Bible as God's word and at the beginning read with trepidation, then the whole of the Bible is so read. This book was written to help Christians navigate some of the forces of modernity which have crept into the church and influenced the way Christians view the reliability of the biblical creation account and more generally the Bible. Its purpose is to encourage readers to see the steadfastness of God's word as a way of making sense of our lives and the world we live in. It hopes to show that a faith-based historical reading of Gen 1-3 provides a more trustworthy explanation of reality than atheistic evolutionary theories or reading the Genesis story as a make-believe myth. But the book is not a polemic per se. It proposes a faith-based historical reading of the creation story in hopes of learning more about God, creation, and ourselves. **We See Things They'll Never See** Chantelle Jessica Lewis, Jason Arday, 2025-09-16

How neurotypical hegemony reproduces a culture of exclusion and how to overcome this with love, hope, and solidarity. Ableism is embedded in our daily lives. Social life, education, work, and especially mental health have been organized around rigid ideas of the ideal and the normal citizen, ideas that always exclude neurodiversity. In this pathbreaking book, Chantelle Jessica Lewis and Jason Arday argue that the neurodiversity movement offers ways to mobilize against not only ableism but also other isms, including racism and capitalism. By focusing on the prevalence of neurotypical dominance and power or neurotypical hegemony, Lewis and Arday show the ways that neurotypical dominance has often been used to justify and normalize some of our more harmful cultures around productivity and value. Throughout the book, Lewis and Arday use theories of Blackness, feminism, class, and neurodivergence to offer a vision of solidarities across differences. They show that race, class, ethnicity, gender, and nation are just some of the social structures for which the politics of neurodiversity can produce an emancipatory analysis. This is a book about applying social theory in practice, taking seriously how academic research and theory can be used outside of academic spaces. With *We See Things They'll Never See*, Lewis and Arday issue a call to action and a call for understanding, acceptance, and humility. **ADHD According to Zoë** Zoë Kessler, 2013-09-01

In this unique and engaging memoir, journalist and popular blogger Zoë Kessler shares her own story of being diagnosed with ADHD in her late 40s. Throughout the book, she offers readers key coping skills based on her experience, skills that can help readers focus their energy, become more organized, and boost their self-esteem while tapping into creativity and humor. *Framing ADHD Children* Adam Rafalovich, 2007-10-01
