## Scavengers Of Death:

Forensic Taphonomy and Ecology of North American Scavengers Susan N. Sincerbox, Elizabeth A. DiGangi, 2017-11-15

Forensic Taphonomy and Ecology of North American Scavengers compiles research on vertebrate scavenging behavior from numerous academic fields including ecology and forensic anthropology Scavenging behavior can displace remains from their depositional context confound postmortem interval estimation destroy osteological markers and inflict damage that mimics or disguises perimortem trauma Consequently the actions of vertebrate scavengers can significantly impact the medicolegal investigation of human remains It is therefore critical when interpreting a death scene and its associated evidence that scavenging be recognized and the possible effects of scavenging behavior considered This book is an ideal reference for both students and medicolegal professionals serving as a field manual for the identification of common scavenging species known to modify human remains in North America In addition this book presents a framework to guide investigators in optimizing their approach to scavenged cases promoting more complete recovery of human remains and the accuracy of forensic reconstructions of peri and postmortem events Examines scavenging behavior through an evolutionary and ecological lens integrating research from diverse fields Includes brief summaries of the taphonomic signatures and ecological contexts of common or well studied North American scavenging taxa Proposes strategies to maximize the recovery of vertebrate scavenged human remains and improve forensic reconstructions of peri and postmortem events *Gone to the Buzzards*

## Diseases of Wild

**Waterfowl** Gary A. Wobeser, 2012-12-06 Management of wild waterfowl has become increasingly intensive Many birds now hatch in managed nesting cover or in artificial nesting structures use man made wetlands and winter on crowded refuges while consuming a grain diet The water they use is often limited in supply and may contain residues from its many prior users Unfortunately intensified management often results in new problems among which disease is important There are many similarities between the current form of management used for some waterfowl and that used in domestic animals In both the objective is to maintain a healthy productive population Dealing with health problems in waterfowl will benefit from combining the skills of veterinary medicine and wildlife ecology Revisiting this book after 15 years allowed me to consider changes at the interface between the two disciplines Veterinary medicine traditionally has been concerned with the individual and with treating sick animals while the ecologist is concerned with populations and the manager has limited interest in treating sick birds During this period there has been a marked increase in awareness among veterinarians that they have a responsibility in wildlife and conservation biology Curricula of many veterinary colleges now include material on non domestic animals and attempt to put disease in an ecological context Also during this time waterfowl managers have become more aware of disease as a factor in population biology and there are early attempts to put numbers to disease in

models of continental waterfowl populations      Cruising for Conspirators Alecia P. Long, 2021-09-13 New Orleans district attorney Jim Garrison's decision to arrest Clay Shaw on March 1 1967 set off a chain of events that culminated in the only prosecution undertaken in the assassination of John F Kennedy In the decades since Garrison captured headlines with this high profile legal spectacle historians conspiracy advocates and Hollywood directors alike have fixated on how a New Orleans based assassination conspiracy might have worked *Cruising for Conspirators* settles the debate for good conclusively showing that the Shaw prosecution was not based in fact but was a product of the criminal justice system's long standing preoccupation with homosexuality Tapping into the public's willingness to take seriously conspiratorial explanations of the Kennedy assassination Garrison drew on the copious files the New Orleans police had accumulated as they surveilled harassed and arrested increasingly large numbers of gay men in the early 1960s He blended unfounded accusations with homophobia to produce a salacious story of a New Orleans based scheme to assassinate JFK that would become a national phenomenon At once a dramatic courtroom narrative and a deeper meditation on the enduring power of homophobia *Cruising for Conspirators* shows how the same dynamics that promoted Garrison's unjust prosecution continue to inform conspiratorial thinking to this day      Intracerebral Hemorrhage J. The Star of Babylon Stewart Diesel-Reynolds, 2024-09-19 While from the north the mighty Medo Persian army threatens the very existence of the great Neo Babylonian Empire within the city of Babylon a secretive and defiant resistance movement has set itself against the reckless overindulgent King Belshazzar and is collaborating with the Persians against him Amidst the subterfuge and the stringent measures taken by the king to quell this rebellion the princess and her lover Eli

a Hebrew are struggling to make sense of a relationship marred by the huge social and religious gap which separates their two cultures and religions They find themselves caught between the resistance and the invading Persians and only manage to escape the chaos with the help of two dissonant palace officials and the leaders of the Hebrew community Their escape however is hampered by the injuries Eli has sustained at the hands of the palace guards and the princess is forced to leave Babylon without him Later he sets out on the camel trail to find her and after running the gauntlet between the desert and the Bedouin bandits he eventually meets up with her on the camel trail to Jerusalem and their new adventure is about to begin

*Faith and Struggle on Smokey Mountain* Benigno P. Beltran, 2012 Smokey Mountain the vast garbage dump in Manila has served for many years as an emblem of third world squalor In many ways it is a metaphor for a planet slowly choking on garbage and waste But for Fr Beltran who served for three decades as a chaplain to the scavengers who survive off this reeking heap it is also a metaphor of hope an emblem of the will to survive the ability to create joy and find meaning even in the midst of abject poverty *Faith and Struggle on Smokey Mountain* describes the spiritual resilience of the scavengers of Smokey Mountain and how they taught Beltran to read the Gospel with new eyes The lessons he learned bear a message for all who struggle for a better world
