Cinquecento Theatrical Spaces Javier Berzal de Dios,2019-01-01 Through an interdisciplinary examination of sixteenth century theatre Visual Experiences in Cinquecento Theatrical Spaces studies the performative aspects of the early modern stage paying special attention to the overlooked complexities of audience experience Examining the period s philosophical and aesthetic ideas about space place and setting the book shows how artists consciously moved away from traditional representations of real spaces on stage instead providing their audiences with more imaginative and collaborative engagements that were untethered by strict definitions of naturalism In this way the book breaks with traditional interpretations of early modern staging techniques arguing that the goal of artists in this period was not to cater to a single privileged viewer through the creation of a naturalistically unified stage but instead to offer up a complex multimedia experience that would captivate a diverse assembly of theatre goers **Bleating Hearts** Mark Hawthorne,2013-11-29

Romantic Theatre Frederick Burwick,2022-06-01 The shift in temporal modalities of Romantic Theatre was the consequence of internal as well as external developments internally the playwright was liberated from the old imperative of Unity of Time and the expectation that the events of the play must not exceed the hours of a single day externally the new social and cultural conformance to the time keeping schedules of labour and business that had become more urgent with the industrial revolution In reviewing the theatre of the Romantic era this monograph draws attention to the ways in which theatre reflected the pervasive impact of increased temporal urgency in social and cultural behaviour The contribution this book makes to the study of drama in the early nineteenth century is a renewed emphasis on time as a prominent element in Romantic dramaturgy and a reappraisal of the extensive experimentation on how time functioned **Scenery and Set**
