Woman's Home Companion ,1915 The Most Elusive Scent of All Arthur Winarczyk,2013-05-23 A tale told by a dimension a living consciousness to which some psychic minds are attune to A tale about the Sicilian Mafia in the 18th century The consciousness projects mental images of this period Images of people faces rarely distinct in different situations The opening words of Chapter 8 is one way to explain such projections With night came a fierce storm with thunder and lightning and dark visions Maria slept poorly tossing and turning The tale is developed to fit cohesively into those images A tale about a Way of Life not about organized crime In the depression of the 1930s it was the gangster Al Capone who organized soup kitchens for hungry children in Chicago USA such a compassionate deed Why To aid the very poor is as much a trait of the Sicilian Mafia as are profits from prostitution Prostitution always has been one of the largest sources of revenue for the Mafia The Mafia Way of Life is not easily understood One reason is that word Mafia is a modern invented word This tale is about the people that became part of the Mafia in that period about their background and what led them to accept this Way of Life People like Pedro an ox of a man and bodyguard or Paulo so talented and saving the life of a woman who would become his wife sets him on a path of no return of Anastasia and Romeo a high class prostitute and a killer who fall in love Central to the tale is the seduction of the first Mafia priest which begins with mysterious notes slid under the church door in a room full of women I saw her face When the Vatican hears a whisper in the wind young Sister Lucy becomes the key to solving the mystery what does Mafia want with our priests Some still want the Sicilian Mafia to be a myth but read a modern researched book such as Into the Heart of the Mafia by David Lane and the question you may ask is not who in Sicily is Mafia but who is not It is a Way of Life ancient in origin The reader needs to bear in mind too that the original womans perfumes could only be made from an essence of a flower found on a tree that only grows in Italy Thus the Most Elusive Scent mentioned all too often could have been the first true perfume ever discovered Any wonder that scent had a powerful effect on men And if we were to ask the Sicilian Mafia dimension what is the one word that can best explain Sicilian Mafia the answer is si Italian for yes Only a born Sicilian can say si and cosa nostra our thing our way the Mafia way of saying those words In Sicily there is even a Mafia cosa nostra museum and it is ever so popular with tourists Studies in the Psychology of Sex Havelock Ellis,1906 How to Get Your Wife in Bed J. S. Peters,2010-01-01 This book has been created out of the reaction to the ever growing divorce rate in North America and the world as well as a belief that two people really can maintain the level of love and passion that they had in the beginning of the relationship I think that people forget the rewards that come with true love As a life long coach it is my challenge to identify and correct the areas that are hindering success in specific areas In this book we are look at why relationships are amazing in the beginning and seem to cool off as time goes by This isn t rocket science it is just dating and courtship Men need to understand how to be happy in their relationships and how they have an incredible influence over the direction of that love We got these amazing women to love us and it is up to

us to keep the love growing **Scent and Scent-sibilities** Kelvin E. Y. Low, 2008-12-18 Smells are distinct and ubiquitous They envelope us enter our bodies and emanate from us Yet they remain relegated to the background of everyday life experiences This book attempts to highlight the social salience of smell in social actors day to day encounters where issues involving morality and social othering presentation of self and personhood intertwine with analyses of smell as a social conduit These encounters include the experiences of anosmic individuals which capture non olfactive social worlds that are rarely addressed hitherto Further deliberations on olfaction in relation to social memberships of race class and gender elucidate upon social boundaries of inclusion and exclusion constructed vis vis smell as a social marker Olfactive adjudications of race and class are then expanded upon through the author s discussion of various smellscape in the context of Singapore Olfaction sanitary discipline and olfactive simulacra are also expounded upon thereby underscoring the control and manipulation of scents in the contexts of modernity and postmodernity Smells therefore offer insights into the workings of social relations and power structures in society By predicating analyses on empirical data procured from Singapore along with case studies from the region and beyond this study draws much needed attention on smell which has been a neglected sense in the wider literature In addition the concurrent employment of the other senses will also be explicated which therefore demonstrates the social character of smell and other sensory modalities through historical and contemporary milieux This book is a pioneering effort in offering sociocultural interpretations of scents based on primary and secondary data analysed using the trajectory of sociology of everyday life Style ,1928 **New York Magazine** ,1992-12-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Evolutionary Biology of Human Female Sexuality** Randy Thornhill, Steven W. Gangestad, 2008 This title introduces a theoretical framework for understanding women s sexuality based on comparative female sexuality across all vertebrate animals It shows that estrus is present in human females contrary to earlier research Perfume on the Page in Nineteenth-Century France Cheryl Krueger, 2023-06-26 Despite long standing assertions that languages including French and English cannot sufficiently communicate the experience of smell much of France s nineteenth century literature has gained praise for its memorable evocation of odours As French perfume was industrialized democratized cosmeticized and feminized in the nineteenth century stories of fragrant scent trails aligned perfume with toxic behaviour and viewed a woman s scent as something alluring but also something to be controlled Drawing on a wealth of resources Perfume on the Page in Nineteenth Century France explores how fiction and related writing on olfaction meet permeate and illuminate one another The book examines medical tracts letters manuscripts posters print advertisements magazine articles perfume manuals etiquette books

interviews and encounters with fragrant materials themselves Cheryl Krueger explores how the olfactory language of a novel or poem conveys the distinctiveness of a text its unique relationship to language its style and its ways of engaging the reader its signature scent Shedding light on the French perfume culture that we know today *Perfume on the Page in Nineteenth Century France* follows the scent trails that ultimately challenge us to read perfume and literature in new ways ,
