*Bodies of Knowledge*

A. Abby Knoblauch,Marie E. Moeller,2022-07-15 Bodies of Knowledge challenges homogenizing mis understandings of knowledge construction and provides a complex discussion of what happens when we do not attend to embodied rhetorical theories and practices Because language is always a reflection of culture to attempt to erase language and knowledge practices that reflect minoritized and historically excluded cultural experiences obscures the legitimacy of such experiences both within and outside the academy The pieces in Bodies of Knowledge draw explicit attention to the impact of the body on text the impact of the body in text the impact of the body as text and the impact of the body upon textual production The contributors investigate embodied rhetorics through the lenses of race and ethnicity gender and sexuality disability and pain technologies and ecologies clothing and performance and scent silence and touch In doing so they challenge the false notion that academic knowledge that is real knowledge is disembodied and therefore presumed white middle class cis het able bodied and male This collection lays bare how myriad bodies invent construct deliver and experience the processes of knowledge building Experts in the field of writing studies provide the necessary theoretical frameworks to better understand productive and unproductive uses of embodied rhetorics within the academy and in the larger social realm To help meet the

theoretical and pedagogical needs of the discipline Bodies of Knowledge addresses embodied rhetorics and embodied writing more broadly though a rich varied and intersectional approach These authors address larger questions around embodiment while considering the various impacts of the body on theories and practices of rhetoric and composition Contributors Scot Barnett Margaret Booker Katherine Bridgman Sara DiCaglio Kristie S Fleckenstein Vyshali Manivannan Temptuous Mckoy Julie Myatt Julie Nelson Ruth Osorio Kate Pantelides Caleb Pendygraft Nadya Pittendrigh Kellie Sharp Hoskins Anthony Stagliano Megan Strom

**Scent of Magic** Maria V. Snyder, 2013-01-01 As the last Healer in the Fifteen Realms Avry of Kazan is in a unique position in the minds of friends and foes alike she no longer exists Despite her need to prevent the megalomaniacal King Tohon from winning control of the Realms Avry is also determined to find her sister and repair their estrangement And she must do it alone as Kerrick her partner and sole confidant returns to Alga to summon his country into battle Though she should be in hiding Avry will do whatever she can to support Tohon s opponents Including infiltrating a holy army evading magic sniffers teaching forest skills to soldiers and figuring out how to stop Tohon s most horrible creations yet an army of the walking dead human and animal alike and nearly impossible to defeat War is coming and Avry is alone Unless she figures out how to do the impossible again

**The Ephemeral History of Perfume** Holly Dugan, 2011-09-14 In contrast to the other senses smell has long been thought of as too elusive too fleeting for traditional historical study Holly Dugan disagrees arguing that there are rich accounts documenting how men and women produced consumed and represented perfumes and their ephemeral effects She delves deeply into the cultural archive of olfaction to explore what a sense of smell reveals about everyday life in early modern England In this book Dugan focuses on six important scents incense rose sassafras rosemary ambergris and jasmine She links these smells to the unique spaces they inhabited churches courts contact zones plague ridden households luxury markets and pleasure gardens and the objects used to dispense them This original approach provides a rare opportunity to study how early modern men and women negotiated the environment in their everyday lives and the importance of smell to their daily actions Dugan defines perfume broadly to include spices flowers herbs animal parts trees resins and other ingredients used to produce artificial scents smokes fumes airs balms powders and liquids In researching these Renaissance aromas Dugan uncovers the extraordinary ways now largely lost that people at the time spoke and wrote about smell objects ambered civited expired fetored halited resented and smeeked or were described as breathful embathed endulced gracious halited incensial odorant pulvil redolent and suffite A unique contribution to early modern studies The Ephemeral History of Perfume is an unparalleled study of olfaction in the Renaissance a period in which new scents and important cultural theories about smell were developed Dugan s inspired analysis of a wide range of underexplored sources makes available to scholars a remarkable wealth of information on the topic

**The Smell Culture Reader** Jim Drobnick, 2024-11-01 Smell is fundamental to experience but mired in paradox Stigmatized as animalistic it nonetheless feeds a vast fragrance and marketing industry Considered ephemeral scents have

survived throughout the ages in a number of religious practices The Smell Culture Reader provides a much needed overview of what is arguably the most elusive sense From hygiene to aromatherapy the fetid to the fragrant smells are shown to be much more than just an adornment or a nuisance Addressing this engaging sense in redolent detail The Smell Culture Reader demonstrates how essential smell is to sexuality social status personal identity and cultural tradition **Smell Detectives** Melanie A. Kiechle, 2017-07-18 What did nineteenth century cities smell like And how did odors matter in the formation of a modern environmental consciousness Smell Detectives follows the nineteenth century Americans who used their noses to make sense of the sanitary challenges caused by rapid urban and industrial growth Melanie Kiechle examines nuisance complaints medical writings domestic advice and myriad discussions of what constituted fresh air and argues that nineteenth century city dwellers anxious about the air they breathed attempted to create healthier cities by detecting and then mitigating the most menacing odors Medical theories in the nineteenth century assumed that foul odors caused disease and that overcrowded cities filled with new and stronger stinks were synonymous with disease and danger But the sources of offending odors proved difficult to pinpoint The creation of city health boards introduced new conflicts between complaining citizens and the officials in charge of the air Smell Detectives looks at the relationship between the construction of scientific expertise on the one hand and common sense the olfactory experiences of common people on the other Although the rise of germ theory revolutionized medical knowledge and ultimately undid this form of sensory knowing Smell Detectives recovers how city residents used their sense of smell and their health concerns about foul odors to understand adjust to and fight against urban environmental changes Sacred Scents in Early Christianity and Islam Mary Thurlkill, 2016-07-26 Medieval scholars and cultural historians have recently turned their attention to the question of smells and what olfactory sensations reveal about society in general and holiness in particular Sacred Scents in Early Christianity and Islam contributes to that conversation explaining how early Christians and Muslims linked the sweet smell of sanctity with ideals of the body and sexuality created boundaries and sacred space and imagined their emerging communal identity Most importantly scent itself transgressive and difficult to control signaled transition and transformation between categories of meaning Christian and Islamic authors distinguished their own fragrant ethical and theological ideals against the stench of oppositional heresy and moral depravity Orthodox Christians ridiculed their stinking Arian neighbors and Muslims denounced the reeking corruption of Umayyad and Abbasid decadence Through the mouths of saints and prophets patriarchal authors labeled perfumed women as existential threats to vulnerable men and consigned them to enclosed private space for their protection as well as society's At the same time theologians praised both men and women who purified and transformed their bodies into aromatic offerings to God Both Christian and Muslim pilgrims venerated sainted men and women with perfumed offerings at tombstones indeed Christians and Muslims often worshipped together honoring common heroes such as Abraham Moses and Jonah Sacred Scents begins by surveying aroma's quotidian functions in Roman and pre-Islamic cultural milieus within homes temples

poetry kitchens and medicines Existing scholarship tends to frame scent as something available only to the wealthy or elite however perfumes spices and incense wafted through the lives of most early Christians and Muslims It ends by examining both traditions views of Paradise identified as the archetypal Garden and source of all perfumes and sweet smells Both Christian and Islamic texts explain Adam and Eve s profound grief at losing access to these heavenly aromas and celebrate God s mercy in allowing earthly remembrances Sacred scent thus prompts humanity s grief for what was lost and the yearning for paradisiacal transformation still to come
