Scholarly Executions:

Execution and Invention Beth A. Berkowitz, 2006-03-23 The death penalty in classical Judaism has been a highly politicized subject in modern scholarship Enlightenment attacks on the Talmud's legitimacy led scholars to use the Talmud's criminal law as evidence for its elevated morals But even more pressing was the need to prove Jews' innocence of the charge of killing Christ The reconstruction of a just Jewish death penalty was a defense against the accusation that a corrupt Jewish court was responsible for the death of Christ In *Execution and Invention* Beth A Berkowitz tells the story of modern scholarship on the ancient rabbinic death penalty and offers a fresh perspective using the approaches of ritual studies cultural criticism and talmudic source criticism Against the scholarly consensus Berkowitz argues that the early Rabbis used the rabbinic laws of the death penalty to establish their power in the wake of the destruction of the Temple Following recent currents in historiography Berkowitz sees the Rabbis as an embattled almost invisible sect within second century Judaism The function of their death penalty laws Berkowitz contends was to create a complex ritual of execution under rabbinic control thus bolstering rabbinic claims to authority in the context of Roman political and cultural domination Understanding rabbinic literature to be in dialogue with the Bible with the variety of ancient Jews and with Roman imperialism Berkowitz shows how the Rabbis tried to create an appealing alternative to the Roman paganized culture of Palestine's Jews In their death penalty the Rabbis substituted Rome's power with their own Early Christians on the other hand used death penalty discourse to critique judicial power But Berkowitz argues that the Christian critique of execution produced new claims to authority as much as the rabbinic embrace By comparing rabbinic conversations about the death penalty with Christian ones Berkowitz reveals death penalty discourse as a significant means of creating authority in second century western religious cultures Advancing the death penalty discourse as a discourse of power Berkowitz sheds light on the central relationship between religious and political authority and the severest form of punishment

The Elgar Companion to Capital Punishment and Society Benjamin Fleury-Steiner, Austin D. Sarat, 2024-09-06 The Elgar Companion to Capital Punishment and Society presents a multidisciplinary overview of capital punishment's influences, processes and outcomes across society. Routledge Handbook on Capital Punishment Robert M. Bohm, Gavin Lee, 2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences, especially in criminal justice and criminology. Over the last decade or so, the United States has experienced a significant decline in the number of death sentences and executions. Since 2007, eight states have abolished capital punishment, bringing the total number of states without the death penalty to 19, plus the District of Columbia, and more are likely to follow suit in the near future. Nebraska reinstated its death penalty in 2016. Worldwide, 70 percent of countries have abolished capital punishment in law or in practice. The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries. Within this context, a fresh look at capital punishment in the United States and worldwide is warranted. The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives. A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter, and chapters present state-of-the-art analyses of a range of aspects of capital punishment grouped into five sections: 1 Capital Punishment History, Opinion and Culture; 2 Capital Punishment Rationales and Religious Views; 3 Capital Punishment and Constitutional Issues; 4 The Death Penalty's Administration; and 5 The Death Penalty's Consequences. This is a key collection for students taking courses in prisons, penology, criminal justice, criminology and related subjects, and is also an essential reference for academics and practitioners working in prison service or in related agencies.

Unlike a traditional encyclopedia comprised solely of A-Z entries, this work consists of two parts. Part I offers detailed essays on particularly important topics; Part II provides brief A-Z entries. Topics are crossreferenced to enable easy research. Among the wide range of topics covered are policing and police misconduct, incarceration, the war on drugs, gangs, border crime and racial profiling. Historically important issues and events relative to the Latino experience of criminal justice in the United States are also included, as are key legal cases.
