## Scholarships 2006 Edition:

The Present State of Scholarship in the History of Rhetoric Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15

Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study. Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric. *The Present State of Scholarship in the History of Rhetoric* doesn't simply update but rather recasts study in the history of rhetoric. The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods, expand the scope of rhetorical engagement and include additional figures and their works. The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors, discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon. New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods. As programs incorporating rhetorical studies continue to expand at the university level, students and researchers are in need of up to date bibliographical resources. No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric* which carries scholarship on rhetoric into the twenty first century.

*Classical Scholarship and Its History* Stephen Harrison, Christopher Pelling, 2021-04-06

It is unusual for a single scholar practically to reorient an entire sub field of study but this is what Chris Stray has done for the history of UK classical scholarship. His remarkable combination of interests in the sociology of scholars and scholarship in the history of the book and of publishing and especially in the detailed intellectual contextualisation of classical scholarship as a form of classical reception has fundamentally changed the way the history of British classics and its study is viewed. A generation ago the history of classical scholarship still consisted largely of accounts of particular scholars and groups of scholars written by other scholars from a broadly biographical and heroic individual perspective. In these works scholars often sought to find their own place in the great tradition, choosing to praise or blame those whose work they admired or deprecated and to identify with particular schools or trends and there were few attempts to provide a broader and less prosopographical perspective. Almost all the chapters in the volume originated as papers at a conference in honour of the honoree and have been improved both by discussion there and by the rigorous peer review process conducted by the two experienced editors. It covers various aspects of classical reception with a particular focus on the history of scholars, their institutions and their writings. The main focus is on the UK but there are also substantial engagements with continental

Europe and especially the USA the period covered runs from the Renaissance to the present The cast contains a number of world famous names Unusually the volume also contains an essay by the honorand but we are very keen to include this especially as it focusses on the topic of scholarly collaboration
