Resurrecting Parts Taylor Petrey, 2015-07-03 During the late second and early third centuries CE the resurrection became a central question for intellectual commentary with increasingly tense divisions between those who interpreted the resurrection as a bodily experience and those who did not The relationship between the resurrected person and their mortal flesh was also a key point of discussion especially in regards to sexual desires body parts and practices Early Christians struggled to articulate how and why these bodily features related to the imagined resurrected self The problems posed by the resurrection thus provoked theological analysis of the mortal body sexual desire and gender Resurrecting Parts is the first study to examine the place of gender and sexuality in early Christian debates on the nature of resurrection investigating how the resurrected body has been interpreted by writers of this period in order to address the nature of sexuality and sexual difference In particular Petrey considers the instability of early Christian attempts to separate maleness and femaleness Bodily parts commonly signified sexual difference yet it was widely thought that future resurrected bodies would not experience desire or reproduction In the absence of sexuality this insistence on difference became difficult

to maintain To achieve a common shared identity and status for the resurrected body that nevertheless preserved sexual difference treatises on the resurrection found it necessary to explain how and in what way these parts would be transformed in the resurrection shedding all associations with sexual desires acts and reproduction Exploring a range of early Christian sources from the Greek and Latin fathers to the authors of the Nag Hammadi writings Resurrecting Parts is a fascinating resource for scholars interested in gender and sexuality in classical antiquity early Christianity asceticism and of course the resurrection and the body

Sexing the World Anthony Corbeill, 2020-03-31 From the moment a child in ancient Rome began to speak Latin the surrounding world became populated with objects possessing grammatical gender masculine eyes oculi feminine trees arbores neuter bodies corpora Sexing the World surveys the many ways in which grammatical gender enabled Latin speakers to organize aspects of their society into sexual categories and how this identification of grammatical gender with biological sex affected Roman perceptions of Latin poetry divine power and the human hermaphrodite Beginning with the ancient grammarians Anthony Corbeill examines how these scholars used the gender of nouns to identify the sex of the object being signified regardless of whether that object was animate or inanimate This informed the Roman poets who for a time changed at whim the grammatical gender for words as seemingly lifeless as dust pulvis or tree bark cortex Corbeill then applies the idea of fluid grammatical gender to the basic tenets of Roman religion and state politics He looks at how the ancients tended to construct Rome's earliest divinities as related male and female pairs a tendency that waned in later periods An analogous change characterized the dual sexed hermaphrodite whose sacred and political significance declined as the republican government became an autocracy Throughout Corbeill shows that the fluid boundaries of sex and gender became increasingly fixed into opposing and exclusive categories Sexing the World contributes to our understanding of the power of language to shape human perception

The One-Sex Body on Trial: The Classical and Early Modern Evidence Helen King, 2016-02-17 By far the most influential work on the history of the body across a wide range of academic disciplines remains that of Thomas Laqueur This book puts on trial the one sex two sex model of Laqueur's Making Sex Body and Gender from the Greeks to Freud through a detailed exploration of the ways in which two classical stories of sexual difference were told retold and remade from the mid sixteenth to the nineteenth century Agnodike the first midwife who disguises herself as a man and then exposes herself to her potential patients and Phaethousa who grows a beard after her husband leaves her are stories from the ancient world that resonated in the early modern period in particular Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine being the common property of those on different sides of professional disputes about women's roles in both medicine and midwifery The study reveals how different genres used these stories changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity

The study raises important questions about the nature of medical knowledge the relationship between texts and observation and the understanding of sexual difference in the early modern world beyond the one sex model **Discursive**

Intersexions Michaela Koch,2017-06-15 Life narratives and fiction that represent experiences of hermaphroditism and intersex are at the core of Michaela Koch's study The analyzed texts from the 19th to the early 21st century are embedded within and contrasted with contemporary debates in medicine psychology or activism to reveal the processes of negotiation about the meaning of hermaphroditism and intersex This cultural studies informed work challenges both strictly essentialist and constructivist notions It argues for a differentiated perspective on intersex and hermaphrodite experiences as historically contingent fully embodied and nevertheless discursive subject positions *Interdisciplinary and Global Perspectives on*

Intersex Megan Walker,2022-01-24 This edited collection interrogates how social and cultural representations of individuals with intersex variations impact how they are understood and treated from legal and medical perspectives across the world Contributors consider how novelists filmmakers artists and medical professionals have represented people with intersex variations and highlight the importance of ethical representation and autonomy to encourage wider cultural and medical knowledge of intersex variations as a naturally occurring phenomenon The text also examines the ways in which individuals with intersex variations are represented and viewed in India Italy Pakistan and Israel as well as how this impacts decision making for the individuals families and medical providers This book argues that reactions to intersex variations will not change unless they are no longer presented as treatable disorders It positions representation at the forefront shifting the emphasis away from a concern for maintaining gender norms to upholding the human rights of intersex people This volume will be of interest to researchers and scholars in intersex studies as well as policymakers and activists **Women Writers'**

Philosophy of Love in German Romanticism Renata T. Fuchs,2024-07-01 This monograph spotlights women writers contributions to the philosophy of German Romanticism Dorothea Mendelssohn Veit Schlegel Rahel Levin Varnhagen Karoline von G nnderrode and Bettina Brentano von Arnim suggested a new vision for an emancipated community of women that develops through philosophical discourse of Progressive Universal Poetry Their personal fictionalized and literary letters reinvent and retheorize the Romantic notions of sociability symphilosophy and sympoetry as theorized by men and retheorize the concepts of love They provided a model for shaping intellectual and cultural life in the modern world while challenging rigid dichotomies of class gender and ethnicity *Specters of Paul* Benjamin H. Dunning,2011-02-07 The first Christians

operated with a hierarchical model of sexual difference common to the ancient Mediterranean with women considered to be lesser versions of men Yet sexual difference was not completely stable as a conceptual category across the spectrum of formative Christian thinking Rather early Christians found ways to exercise theological creativity and to think differently from one another as they probed the enigma of sexually differentiated bodies In *Specters of Paul* Benjamin H Dunning explores this variety in second and third century Christian thought with particular attention to the ways the legacy of the

apostle Paul fueled shaped and also constrained approaches to the issue Paul articulates his vision of what it means to be human primarily by situating human beings between two poles creation Adam and resurrection Christ But within this framework where does one place the figure of Eve and the difference that her female body represents Dunning demonstrates that this dilemma impacted a range of Christian thinkers in the centuries immediately following the apostle including Clement of Alexandria Irenaeus of Lyons Tertullian of Carthage and authors from the Nag Hammadi corpus While each of these thinkers attempts to give the difference of the feminine a coherent place within a Pauline typological framework Dunning shows that they all fail to deliver fully on the coherence that they promise Instead sexual difference haunts the Pauline discourse of identity and sameness as the difference that can be neither fully assimilated nor fully ejected a conclusion with important implications not only for early Christian history but also for feminist and queer philosophy and theology

Mapping Gender in Ancient Religious Discourses Todd C. Penner, Caroline Vander Stichele, 2007 A collection of essays on early Christian Jewish and Greco Roman religious discourses in antiquity focusing on the construction of gender in relationship to broader cultural and religious themes argumentation and identity formation in the early centuries of the common era

Exploring Gender Diversity in the Ancient World Surtees Allison Surtees, 2020-03-02 Explores how binary gender and behaviours of gender were actively challenged in classical antiquity Provides a focus on gender on its own terms and outside the context of sex and sexuality Offers an interdisciplinary approach appealing to Classicists Ancient Historians and Archaeologists as well as audiences working outside the ancient world in Gender Studies Transgender Studies LGBTQ Studies Anthropology and Women s Studies Covers a broad time period 6th c BCE 3rd c CE and addresses both textual evidence and material culture vases sculpture wall painting Provides history of gender identities and behaviours previously ignored or suppressed by disciplinary practices Gender identity and expression in ancient cultures are questioned in these 15 essays in light of our new understandings of sex and gender Using contemporary theory and methodologies this book opens up a new history of gender diversity from the ancient world to our own encouraging us to reconsider those very understandings of sex and gender identity New analyses of ancient Greek and Roman culture that reveal a history of gender diverse individuals that has not been recognised until recently Taking an interdisciplinary approach these essays will appeal to classicists ancient historians archaeologists as well as those working in gender studies transgender studies LGBTQ studies anthropology and women s studies

Law and Consent Karla O'Regan, 2019-06-28 Consent is used in many different social and legal contexts with the pervasive understanding that it is and has always been about autonomy but has it Beginning with an overview of consent s role in law today this book investigates the doctrine s inseparable association with personal autonomy and its effect in producing both idealised and demonised forms of personhood and agency This prompts a search for alternative understandings of consent Through an exploration of sexual offences in Antiquity medical practice in the Middle Ages and the regulation of bodily harm on the present day sports field this book demonstrates that in contrast to its

common sense story of autonomy consent more often operates as an act of submission than as a form of personal freedom or agency The book explores the implications of this counter narrative for the law s contemporary uses of consent arguing that the kind of freedom consent is meant to enact might be foreclosed by the very frame in which we think about autonomy itself This book will be of interest to scholars of many aspects of law history and feminism as well as students of criminal law bioethics and political theory

Intersexualization Lena Eckert,2016-12-08 Since the 1970s research into Intersex has been a central fascination for feminist theorists seeking to make arguments about how men and women are created as social gender categories *Intersexualization The Clinic and the Colony* takes the case of Olympic runner Caster Semenya as a starting point to explore the issue of determining sex and the ways in which intersexuality is a threat to the distinction between men women homosexuality heterosexuality and white black By focusing on the 1950s and the 40 years after Eckert shows how what she calls intersexualization began in psycho medical research at the Johns Hopkins Hospital in Baltimore and UCLA and has from there spread into cross cultural anthropological accounts conducted in Papua New Guinea and the Dominican Republic With cross cultural intersexualization having been largely neglected in recent literature on intersex this timely volume describes how such intersexualization derives from the combination of medicalization and pathologization through two crucial parts The first part *The Clinic* describes historical psycho medical material engaging with hermaphroditism ranging from Greek Mythology up to today This is followed by *The Colony* which analyzes in several close readings cross cultural anthropological sexological and psychoanalytical accounts contributing to cross cultural intersexualization Enclosing a wide range of inter and transdisciplinary approaches to heteronormative and dichotomously organized frames of knowledge and organization this volume is essential reading for upper undergraduate and post graduate students within the fields of gender studies social studies of medicine anthropology science and technology studies cultural studies sociology and history of medicine

Conversing on Gender Gregory G. Bolich,2006-12-15 *Conversing on Gender* is as its subtitle indicates a primer for entering the broad conversation on gender that can be found both inside and outside of academic circles The book considers the relation of gender to sex and sexuality reviews prominent theories of gender and covers basic gender issues

The Tyranny of Ordinary Meaning Christopher Hutton,2019-06-21 This book offers an in depth analysis of the case of *Corbett v Corbett* a landmark in terms of law s engagement with sexual identity marriage and transgender rights The judgement was handed down in 1970 but the decision has shaped decades of debate about the law s control and recognition of non normative gender identities The decision in this case that the marriage between the Hon Arthur Corbett and April Ashley was void on the grounds that April Ashley had been born male has been profoundly influential across the common law world and came as a dramatic and intolerant intervention in developing discussions about the relationships between medicine law questions of sex versus gender and personal identity The case raises fundamental questions concerning law in its historical and intellectual context in particular relating to the centrality of ordinary language

for legal interpretation and this book will be of interest to students and scholars of language and law legal history gender and sexuality **"The Poor, the Crippled, the Blind, and the Lamé"** Louise A. Gosbell,2018-08-03 The New Testament

gospels feature numerous social exchanges between Jesus and people with various physical and sensory disabilities Despite this traditional biblical scholarship has not seen these people as agents in their own right but existing only to highlight the actions of Jesus as a miracle worker In this study Louise A Gosbell uses disability as a lens through which to explore a number of these passages anew Using the cultural model of disability as the theoretical basis she explores the way that the gospel writers as with other writers of the ancient world used the language of disability as a means of understanding organising and interpreting the experiences of humanity Her investigation highlights the ways in which the gospel writers reinforce and reflect as well as subvert culturally driven constructions of disability in the ancient world **Closeted**

Writing and Lesbian and Gay Literature David M. Robinson,2017-05-15 Arguing for renewed attention to covert same sex oriented writing and to authorial intention more generally this study explores the representation of female and male homosexuality in late sixteenth through mid eighteenth century British and French literature The author also uncovers and analyzes long term continuities in the representation of same sex love sex and desire between the classical early modern eighteenth century and even modern periods Among the seventeenth and eighteenth century authors and texts examined here are Mme de Murat Les Memoires De Madame La Comtesse De M 1697 John Cleland Memoirs of a Woman of Pleasure 1748 49 Tobias Smollett The Adventures of Roderick Random 1748 Nicolas Chorier and Jean Nicolas L Academie des dames 1680 Delarivier Manley The New Atalantis 1709 and Isaac de Benserade Iphis et Iante 1637 Classical texts brought into the discussion include Juvenal s Satires Lucian s Erotes and most importantly Ovid s Metamorphoses Casting its net broadly yet exploring deeply poems plays novels and more from the serious to the satiric the polite to the pornographic well known and little known written in English French and Latin published in early modern and eighteenth century Britain and France plus key classical texts this study engages with the historiography of sexuality as a whole
