Gender and University Teaching Anne Statham, Laurel Richardson, Judith A. Cook, 1991-01-01 This book examines university teaching from several perspectives What male and female professors do in the classroom their perceptions and feelings about teaching and how students respond Data were gathered by observing professors in their classrooms doing selected unstructured interviews and soliciting evaluations feedback from their students This triangulation of data provides a richness of information and insight into the process of university teaching In addition to providing useful feedback to professors and administrators this study integrates several social psychological approaches to gender with more recent feminist formulations The findings support recently developed perspectives which argue that gender is a constantly created social phenomenon not one cast securely in the concrete of social structure **Academic and Workplace Sexual**

Women's Rights Law Reporter ,1981 *Higher Education: Handbook of Theory and Research* J.C. Smart,2012-12-06 To recapitulate Greeks differ from Independents and from the academy s value priorities but for the most part these differences derive from antecedent characteristics Moreover there are some grounds for speculating that these anteceded differences reflect fundamental temperamental differences extraversion and gregariousness mediated by social interaction as opposed to interaction through ideas Only to a limited degree does the Greek system appear to adversely affect the acquisition and assimilation of the academy s value priorities i e students as a whole Greek and Independent alike appear to become more independent liberal socially concerned and culturally sophisticated by graduation However the Greek system s effect on the behavior of Greeks is more troubling an effect largely mediated by the use and abuse of alcohol and the relative absence of direct institutional supervision Assuming the retention of the Greek system then the promotion of the academy s agenda appears dependent on a an understanding

and accommodation of the personal characteristics of Greeks using appropriate pedagogical methods to advance the academy's educational objectives and both educational and administrative regulatory efforts to control the use and abuse of alcohol. With or without the Greek system the advancement of the academy's agenda involves these considerations since the characteristics of students as a whole encompass the characteristics emphasized among Greeks **Women**
