Sex and Society in the World of the Orthodox Slavs 900-1700 Eve Levin,2018-09-05 In this pioneering book Eve Levin explores sexual behavior among the peoples of Serbia Bulgaria and Russia from their conversion to Christianity in the ninth and tenth centuries until the end of the seventeenth century By ranging across all these societies Levin is able to fulfill three basic aims to delineate the general character of sexuality among the Orthodox Slavs to enrich that account by drawing our attention to regional variations in the sexual mores of these peoples and to draw suggestive comparisons between the world of the medieval Orthodox Slavs and their contemporaries in the Latin West Levin begins with a study of the ecclesiastical image of sexuality as expressed in didactic and literary texts showing that the Orthodox Church was deeply suspicious of sexuality Her second chapter on canon law and marriage examines the conditions for marriage divorce and remarriage the obligation of the conjugal relationship and the impact of these rules on social order Levin looks at church regulations concerning sexual relations among relatives by blood marriage spiritual kinship and adoption in Chapter Three and she devotes Chapter Four to prohibited sexual practices both inside and outside of marriage In the fifth chapter she studies Russian and South Slavic responses to rape and demonstrates that these societies simultaneously censured violence against women and sanctioned the attitudes and social structures that justified it Chapter Six deals with the rules on sexual conduct for the clergy whose job it was to enforce sexual precepts Throughout her work Levin argues that despite its conviction that sexual expression was diabolical the medieval Orthodox Church approached sexual matters in a surprisingly practical way its official sexual ethic corresponded to a great degree with popular views Historians of the Slavic world both
