## **Sexual Revolutions Gender And Labor At The Dawn Of Agriculture:**

**Sexual Revolutions** Jane Peterson, 2002 The change from the hunting gathering lifestyle to one dependent upon farming constitutes a truly revolutionary event in the human career Most archaeologists agree that the way in which ancient people organized their work and family groups were crucial to the success of early attempts at farming This is a study of the historical sexual division of labour As a case study Jane Peterson chose the southern Levant of West Asia where the world's first farming societies emerged some 10 000 years ago Seeking to shatter long held assumptions about women's work that lead to generalizations about gender roles Peterson shows that gender studies can be both scientific and grounded in feminist theory

**Sexual Revolutions** Jane Peterson, 2002 The change from a hunting gathering lifestyle to one dependent upon farming constitutes a truly revolutionary event in the human career Most archaeologists agree that how ancient people organized their work and family groups was crucial to the success of early attempts at farming Yet little serious attention has been paid to the social organization of labor in the prehistoric past This book addresses that lacuna by investigating sexual divisions of labor As a case study Peterson chose the southern Levant of West Asia where the world's first farming societies emerged some 10 000 years ago Shattering long held assumptions about women's work that lead to generalizations about gender roles Peterson shows that gender studies can be both scientific and thoroughly grounded in feminist theory

**The Social Archaeology of Funerary Remains** Rebecca Gowland, Christopher Knusel, 2009-04-06 Human bones form the most direct link to understanding how people lived in the past who they were and where they came from The interpretative value of human skeletal remains within their burial context in terms of past social identity and organisation is awesome but was for many years underexploited by archaeologists The nineteen papers in this edited volume are an attempt to redress this by marrying the cultural aspects of burial with the anthropology of the deceased

**Bioarchaeology** Clark Spencer Larsen, 2015-03-30 A synthetic treatment of the study of human remains from archaeological contexts for current and future generations of bioarchaeologists

**Identity and Subsistence** Sarah M. Nelson, 2007 Throughout human history gender has served as one of the ways in which human beings form their identities and then make their way in the world But it is not the only way We also discover ourselves through race age class and other categories Increasingly archaeologists are recovering evidence of the ways in which gender has been important in identity formation in the past especially in its interaction with other social factors In *Identity and Subsistence* a number of scholars look at how the idea of gender has worked with respect to the formation of the self masculinity and femininity human evolution and the development of early agrarian and pastoralist societies

**Invisible Sex** J. M. Adovasio,Olga Soffer,Jake Page,2016-09-16 Shaped by cartoons and museum dioramas our vision of Paleolithic times tends to feature fur clad male hunters fearlessly attacking mammoths while timid women hover fearfully behind a boulder Recent archaeological research has shown that this vision bears little relation to reality J M Adovasio and Olga Soffer two of the world s leading experts on perishable artifacts such as basketry cordage and weaving present an exciting new look at prehistory With science writer Jake Page they argue that women invented all kinds of critical materials

including the clothing necessary for life in colder climates the ropes used to make rafts that enabled long distance travel by water and nets used for communal hunting Even more important women played a central role in the development of language and social life in short in our becoming human In this eye opening book a new story about women in prehistory emerges with provocative implications for our assumptions about gender today Landscape History of Hadramawt Michael J.
