detail and a candid sympathy for the disenfranchised whose lot in South Africa has not necessarily improved under democracy. It's a distressing picture she draws: the persisting mutual ignorance even reciprocal demonization across old ethnic and racial lines alongside the ongoing economic injustice. The revolution in South Africa has been a piecemeal affair and Besteman's descriptions of the difficulties that even the best intentioned individuals encounter as they struggle toward creating a general social transformation ring painfully true. William Finnegan, author of *Crossing the Line*, *Dateline Soweto*, *A Complicated War*, and *Cold New World*, *Transforming Cape Town* is a fascinating account of how people in this divided city engage with democracy, transformation, and the legacies and ongoing realities of radical inequalities. Through conversations with ordinary people, Besteman explores the ways in which apartheid's legacies continue to shape interactions both intimate and public. In doing so, she restores a sense of faith in anthropology as a tool for understanding and critiquing social worlds.
