Politics in Popular Movies John S. Nelson,2015-10-23 Popular movies can be surprisingly smart about politics from the portentous politics of state or war to the grassroots everyday politics of family romance business church and school Politics in Popular Movies analyses the politics in many well known films across four popular genres horror war thriller and science fiction The book s aims are to appreciate specific movies and their shared forms to understand their political engagements and to provoke some insightful conversations The means are loosely related film takes that venture ambitious playful and engaging arguments on political styles encouraged by recent films Politics in Popular Movies shows how conspiracy films expose oppressive systems it explores how various thrillers prefigured American experiences of 9 11 and shaped aspects of the War on Terror how some horror films embrace new media while others use ultra violence to spur political action it argues that a popular genre is emerging to examine non linear politics of globalisation terrorism and more Finally it analyses the ways in which sci fi movies reflect populist politics from the Occupy and Tea Party movements rethink the political foundations of current societies and even remake our cultural images of the future

Film and the American Presidency Jeff Menne,Christian B. Long,2015-02-20 The contention of Film and the American Presidency is that over the twentieth century the cinema has been a silent partner in setting the parameters of what we might call the presidential imaginary This volume surveys the partnership in its longevity placing stress on especially iconic presidents such as Lincoln and FDR The contributions to this collection probe the rich interactions between these high institutions of culture and politics Hollywood and the presidency and argue that not only did Hollywood acting become an idiom for presidential style but that Hollywood early on understood its own identity through the presidency s peculiar mix of national epic and unified protagonist Additionally they contend that studios often made their films to sway political outcomes that the performance of presidential personae has been constrained by the kinds of bodies for so long white and male that have occupied the office such that presidential embodiment obscures the body politic and that Hollywood and the presidency may finally be nothing more than two privileged figures of media age power

Haunting Stories From Unseen World Hseham Amrahs,2024-01-27 This anthology is a collection of spine chilling narratives drawn from the darkest corners of the cosmos where the laws of reality bend and twist and the veil

between the mundane and the macabre is perilously thin Each tale serves as a portal to an otherworldly realm where the inexplicable and the terrifying converge to weave a tapestry of cosmic horror These stories are not bound by the limitations of our known universe instead they propel readers into the cosmic unknown where the echoes of dread and the whispers of the eldritch dance in the shadows As the curator of this ethereal compendium I invite you dear reader to embark on a journey into the realms beyond the stars Prepare to encounter malevolent entities ancient forces and unspeakable horrors that defy earthly comprehension These stories are not for the faint of heart they are tales that grip the soul and elicit a primal fear a fear that resonates not only with the unknown lurking in the cosmos but also with the depths of the human psyche In the following pages you will traverse desolate planets shrouded in perpetual darkness confront entities that defy the laws of nature and witness the awakening of malevolent forces that have slumbered for eons Each story is a portal to a different dimension a glimpse into the cosmic nightmares that await those who dare to peer beyond the veil Deep Cover Ethan Ross,2025-09-03 They were just oil workers until they uncovered Iran s deadliest secret When three engineers disappear from a remote Iranian drilling site whispers of CIA involvement ignite a diplomatic firestorm But what they stumbled upon wasn t intelligence it was the cornerstone of a covert nuclear fusion program funded by shadow players in Moscow and Beijing One survives Two don t As global tensions mount Jack Copeland CIA black operations commander is thrust into the eye of a political hurricane What begins as a rescue mission spirals into a high stakes campaign of sabotage betrayal and precision strikes across the Middle East Behind the chaos a network of rogue generals foreign ministers and silent financiers are pushing the world to the brink From Tehran s back alleys to NATO war rooms and the decks of U S warships poised for launch the clock is ticking One strike could start a war One man might stop it Precision Consequence Reprisal This is the new face of shadow warfare **Searching for a Demon** Steven M. Chermak,2002 This provocative volume thoroughly examines the ways in which the media demonized militia groups following the devastating bombing of the Alfred F Murrah building in Oklahoma City Using quantitative and qualitative research methods Steven M Chermak offers a fresh perspective on how news coverage and popular entertainment transformed a largely overlooked movement into a symbol for this new threat of domestic terrorism and ignited a national panic over the militia menace Searching for a Demon describes the representation of the militia movement in the news media editorial cartoons films and television Chermak delves into such topics as the type and amount of coverage after the blast how social problems are constructed in the news the motivations and biases of authoritative or celebrity figures used as news sources and why images of militias were framed in specific ways Chermak balances his account with an in depth look at the philosophies activities and strategies of militia groups Drawing on extensive interviews he conducted at gun shows and preparedness exhibitions the author compares and contrasts media depictions of militia life and ideology with the firsthand accounts of members and leaders themselves and he assesses how media coverage affected changes in the movement In conclusion Chermak discusses the parallels between media treatment of militias in the

wake of the Oklahoma City bombing and the coverage of the al Qaeda terrorist network after the September 11 2001 attacks Solidly grounded in social constructionist theory Searching for a Demon fills a significant gap in the literature on terrorism as well as on the roles of the news media and popular culture in reshaping the public consciousness after dramatic crimes
