as raw material to be molded into a more radical modernism than that offered by any other contemporary artists or thinkers In doing so they offered readers a vanguard alternative that reshaped postwar American culture nonaesthetic mass culture reconceived and refashioned into rich personally relevant art by the attuned creative spectator The Rhapsodes David Bordwell,2016-04-04 An engaging look at four pioneering film critics besides being a pleasure to read it makes a sophisticated contribution to the study of film criticism Cineaste In the 1960s Pauline Kael Andrew Sarris and Roger Ebert were three of America s most popular and influential film critics But their remarkable contributions to the cinema landscape were deeply influenced by the work of four earlier critics who are too often overlooked Otis Ferguson James Agee Manny Farber and Parker Tyler Throughout the 30s and 40s these pioneering critics scrutinized movies with an intensity not previously seen in popular reviewing With The Rhapsodes renowned film scholar and critic David Bordwell restores their work to a wider audience Bordwell calls these four critics the Rhapsodes in honor of their passionate and deliberately offbeat prose Each broke with prevailing currents in criticism finding new ways to discuss popular films that their contemporaries regarded as trivial With his customary clarity and brio Bordwell considers each critics writing style their conceptions of films and their many quarrels He then concludes by examining their profound impact on later generations of film writers **The Complete History of American Film Criticism** Jerry Roberts,2010-02-01 The Complete History of American Film Criticism is a chronicle of the lives and work of the most influential film critics of the past 100 years From the first movie review in the New York Times in 1896 through the Silent Era the pre and postwar years the Film Generation of the 1960s the Golden Age of the 1970s and into the 21st century critics have educated generations of discriminating moviegoers on the differences between good films and bad They call attention to great directors cinematographers production designers screenwriters and actors and shed light on their artistic visions and storytelling sensibilities People interested in what the great film critics had to say have usually been shortchanged as to their backgrounds and just why they are qualified to sit in judgment Using mini biographies placed within a chronological framework The Complete History of American Film Criticism is the biography of a profession whose cultural impact has left an indelible mark on the 20th century s most significant art form **A Study of the Formal and Thematic Uses of Film in the Poetry of Parker Tyler, Frank O'Hara and Adrienne Rich** Barbara Fialkowski McMillen,1985 **How to Read a Film** James Monaco,1977 *The Address of the Eye* Vivian Sobchack,2020-05-05 Cinema is a sensuous object but in our presence it becomes also a sensing sensual sense making subject Thus argues Vivian Sobchack as she challenges basic assumptions of current film theory that reduce film to an object of vision and the spectator to a victim of a deterministic cinematic apparatus Maintaining that these premises ignore the material and cultural historical situations of both the spectator and the film the author makes the radical proposal that the cinematic experience depends on two viewers viewing the spectator and the film each existing as both subject and object of vision Drawing on existential and semiotic phenomenology and particularly on the work of Merleau Ponty Sobchack shows

how the film experience provides empirical insight into the reversible dialectical and signifying nature of that embodied vision we each live daily as both mine and another's In this attempt to account for cinematic intelligibility and signification the author explores the possibility of human choice and expressive freedom within the bounds of history and culture
