Shakespeare Bacon and the Great Unknown by Andrew Lang

Shakespeare Bacon and the Great Unknown is a classic Shakespeare studies text by Andrew Lang. The theory that Francis Bacon was in the main the author of Shakespeare's plays has now been for fifty years before the learned world. Its advocates have met with less support than they had reason to expect. Their methods, their logic, and their hypotheses closely resemble those applied by many British and foreign scholars to Homer and by critics of the very Highest School to Holy Writ. Yet the Baconian theory is universally rejected in England by the professors and historians of English literature.
